Hello!

I am

Ambalika
Chowdhury.

I am an Accessory Designer specialising in Product Experience Design. My solutions rely on keen, everyday life observation, and also research-driven strategies. I am always curious and eager to learn, which I believe is a strong foundation in my work. Experimental design and Sustainable design has been something which has always fascinated me, and I am keen to explore more in the broad field of design in order to hone my skills and continue growing as a designer.

EXPERIENCE

Green Furniture for Sustainably Designed Interiors

International Conference for Sustainable Design Practices, 2023.

The overuse of non-eco-friendly materials harms the environment by contributing to landfill waste. Sustainable furniture, made through green manufacturing using recyclable and renewable resources, offers an effective solution. This paper highlights the importance of eco-friendly materials, promoting green furniture as a step toward a more sustainable lifestyle.

Pine Needle Weaving

Craft Research & Documentation, 2024.

A 10-day field study to research and document the craft of Pine Needle Weaving practiced in Rait, Himachal Pradesh. Artisans and other local dwellers in the area were interviewed to better understand the environment and socio-cultural influences, followed by a deep dive into the craft itself. The entire research was documented by photographs, videos, recordings and samples. It was further enhanced by the use of Adobe Photoshop, Adobe Illustrator, and Adobe Fresco.

Enameling & Meenakari Workshop

2024.

The overuse of non-eco-friendly materials harms the environment by contributing to landfill waste. Sustainable furniture, made through green manufacturing using recyclable and renewable resources, offers an effective solution. This paper highlights the importance of eco-friendly materials, promoting green furniture as a step toward a more sustainable lifestyle.

Ply Split Braiding Workshop

2024.

Ply split braiding is an ancient art used to make elaborate camel girths and other animal regalia. It originated from Northwestern India, and is slowly perishing. Conducted by Mr. Erroll Pires Nelson, it was an engaging workshop where the history of ply split braiding was discussed, followed by hands on experience of the craft itself.

SKILLS

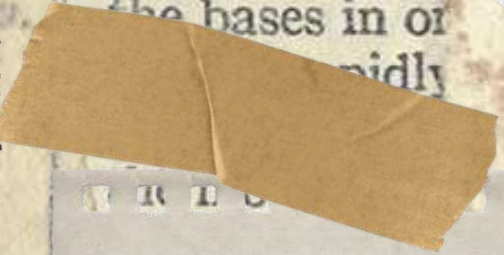

- Sketching & Rendering
- Technical Drawing
- Material Handling
- Prototyping
- Graphic Designing
- Digital Illustration
- Photography
- Layout Designing

DESIGN SKILLS

- Storytelling
- Team Collaboration
- Time Management
- Willingness to Learn
- User Research

SOFT SKILLS

- Adobe Photoshop
- Adobe Illustrator
- Adobe Fresco
- Adobe InDesign
- Autocad 2D
- Rhinoceros 3D
- Wix
- Figma
