PROFESSIONAL SUMMARY

Aspiring Data Analytics Professional with a strong foundation in statistical analysis, data manipulation, and programming. Proficient in Python, R, and SQL, with skills in data visualization and a passion for applying insights to real-world challenges. Eager to contribute to data-driven decision-making processes.

EDUCATION

High School -91.2%	Delhi Skill and Entrepreneurship University	
Senior Secondary School (XII th)-89.8%	B.Sc. (Data Analytics)	8.0 CGPA

PROJECT

Sales Data Analysis and Visualization

Analyzed retail sales data to identify trends, customer behavior, and product performance using Python and Tableau.

- Cleaned and processed datasets of 50,000+ sales records to ensure data quality and accuracy.
- Performed exploratory data analysis (EDA) to uncover key sales trends and seasonal patterns.
- Created interactive dashboards visualizing top products, monthly sales, and regional performance.
- Provided actionable insights that helped the store optimize inventory and marketing strategies.

Data scientist Intern at Renu sharma foundation

Assisted in collecting, cleaning, and preprocessing large datasets to ensure high-quality input for modeling.

Conducted exploratory data analysis (EDA) to identify trends, patterns, and anomalies using Python libraries (pandas, numpy, matplotlib).

Developed and tested predictive models using machine learning algorithms like regression, classification, and clustering.

Created data visualizations and dashboards to communicate insights to team members and stakeholders.

Collaborated with cross-functional teams to understand business problems and translate them into data-driven solutions.

Documented methodologies, model results, and insights for knowledge sharing and decision making.

Supported automation of data pipelines and model deployment processes.

SKILL

Programming Languages: Python, SQL, Html, CSS, Java Script.

Machine Learning: Supervised and Unsupervised, Scikit-learn, TensorFlow.

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Advance Excel.

Tools: Ms Office, MySQL Workbench, jupyter, GitHub, Tableau, Power BI.

Soft Skills: Attention to detail, Communication, Teamwork, Problem-solving.

Languages : English , Hindi.

CERTIFICATION

- Python and R programming
- Excel Crash Course
- Power BI Micro Course
- Machine-learning

HOBBIES

Listening Music
Playing Video Game
