PROJECTS

Assignment on Public Policy Formulation and Implementation [2024]

Conducted a comprehensive study on the various stages of public policy, including agenda setting, formulation, adoption, implementation, and evaluation. Analyzed real-world examples of government policies in India and globally, highlighting successes and challenges in areas such as education, healthcare, and social welfare. Explored the roles of key administrative agencies, policymakers, and stakeholders in ensuring effective policy outcomes. Discussed frameworks like the Policy Cycle Model and concepts such as bureaucratic discretion and public accountability.

Assignment on Western Political Thought [2025]

Engaged in an extensive examination of political philosophies from ancient Greece through the modern era. Covered seminal thinkers such as Plato (theory of justice and the ideal state), Aristotle (concepts of polity and citizenship), Thomas Aquinas and Augustine representing Medieval political theology, Georg Wilhelm Friedrich Hegel (dialectics and the state), and Karl Marx (class struggle and communism). Explored the evolution of ideas concerning sovereignty, democracy, liberty, and the role of the state. Analyzed how these philosophies influenced movements such as the Enlightenment, liberalism, socialism, and modern political theory. Examined the continuing impact of these ideas on contemporary political institutions and governance.
