I seek challenging opportunities where I can fully use my skills for the success of the organization.

Skills

- Visual design
- Project management
- Time management
- Creative problem solving
- Team collaboration
- Attention to details
- Design implementation
- Patterning skills
- Material selection
- Teamwork skills
- Rough sketching

Projects

• **Designed costume for fashion shows in university**

May 2025 - May 2025

IILM University - Gurugram

Designed Costume

Assisted with makeup, hair styling, and wardrobe selection to ensure the desired look was achieved. Created detailed wireframes, storyboards, user flows and process flows to effectively communicate interaction and design ideas.

Developed style guides for visual elements such as branding systems, typography standards, colour schemes, photography styles.

Created high quality visual designs that are both aesthetically pleasing and intuitive for users.

• **Made Promo as University Project**

Utilised various software and tools to streamline processes and optimised performance.

Conducted system analysis and testing to identify and resolve technical issues or inefficiencies.

Managed time effectively to ensure tasks were completed on schedule and deadlines were met.
