PROFESSIONAL EXPERIENCE:

World Brain Centre Hospital, Delhi

July 2024

- Following my internship, I have significantly enhanced my rapport-building skills and gained valuable insights into developing strong interpersonal relationships in a professional setting. Additionally, I have developed a deeper understanding of the importance of active listening when communicating with patients' families, particularly in helping them navigate through the diagnoses.
- Acquired hands-on experience in both inpatient (IPD) and outpatient (OPD) settings, interacting with a diverse patient population under the supervision of clinical psychologists.
- Conducted detailed case history interviews and closely observed the administration of various psychological assessments, including the Rorschach Inkblot Test, PANSS, Y-BOCS, HAM-D, and the Alcohol Dependency Scale.
- Strengthened rapport-building skills and enhanced professional interpersonal communication through daily interactions with patients.
- Gained practical insight into the significance of active listening, especially in supporting patients' families during diagnosis and treatment planning discussions.

Pledge a Smile Foundation

January 2025

- Contributed to fundraising and awareness initiatives aimed at supporting underprivileged communities.
- Designed engaging visual content using Canva, including posters and social media graphics, to promote campaigns and events.
- Wrote compelling content for online platforms, to effectively communicate the foundation's mission and impact.
- Collaborated with team members to develop outreach strategies, helping expand the NGO's digital presence and engagement.
