ABOUT ME

I have always been passionate about learning upon the legal system of the country, and I am eager to further pursue my education and skills through this programme. I completed my High school education at Amity International school, Gurgaon, where I pursued Humanities. I have always believed in a balanced approach between education and extra-curricular activities engagement. This philosophy has driven me to strive for excellence in all my pursuits. Looking ahead, I am particularly interested in understanding the Corporate law system and am keen to explore more in the field of law.
