

PROFILE

Hi, I'm Anushka Debnath, a Communication Design student with a passion for creativity and problem-solving. Design, for me, is more than aesthetics-it's a way to make life simpler, better, and more meaningful.

Since childhood, I've been captivated by art and design, which naturally led me to pursue a field where ideas transform into impactful solutions.

Every project I take on is an opportunity to bring about positive change through thoughtful design. With a growing toolbox of skills and an eagerness to learn, I strive to create experiences that not only solve problems but also inspire others.
