EMPLOYER'S NAME- CHILD RIGHTS AND YOU

EMPLOYER'S ADDRESS- Mumbai

Dear hiring manager,

I am writing to show my interest in the Internship role at CHILD RIGHTS AND YOU(CRY) NGO , as referenced on your NGO's website. I am a first-year law student and will be studying BA. LL.B at the NMIMS Mumbai campus , with a special interest in community development and social welfare .During my course of study, I have developed an in-depth understanding of several social issues intervention strategies, and advocacy of policy. Why I am interested in CRY foundation is that you are dedicated to creating a real difference in the community. The recent work of your NGO on supporting children in rural areas struck a chord in my personal cause. I think that interning at CRY would provide a valuable chance to give back and learn from committed professional striving for social change. Although I lack formal experience in an NGO environment, I have played a positive role in many volunteer activities during my academic career. These encounters have sharpened my communication, teamwork, and problem-solving abilities, which I believe will be a valuable addition to my position as an intern. I am excited about the opportunity to work with CHILD RIGHTS AND YOU and make a difference to your cause. I am certain that this internship will offer quality experience of the operations of an NGO and allow me to contribute positively to society. I appreciate your time considering my application.

Sincerely,

Avanya Singh
