

NAVANEETH A

INDUSTRIAL DESIGN STUDENT

navaneethanil3604@gmail.com [LinkedIn](#)

A student designer who is proactive and driven by curiosity. I am interested in working on a wide range of design areas, including industrial product design, hands-on prototyping, and the creation of tangible products. Starting with an interest in sketching and visualization, I also explored the UX design space. The core of what I do is always linked to understanding human interactions around products and spaces. I observe people and am interested in the differences in behavioral patterns across cultures, age groups, and locations. Strong research builds the foundation of my endeavors. My projects are mostly aimed towards social good by working on the real user needs of the people I observe and research.

SKILLS

Design Thinking	Event Planning & Coordination	Interaction Design
User Research	Community Engagement	Visual Design
Prototyping	Space Design	Freehand Sketching

EDUCATION

Secondary (10th grade)

Trinity Lyceum School ,Kollam ,Kerala.
Percentile (ICSE) - 93.6 %
