Education

Symbiosis Institute of Computer Studies and Research

Bachelor of Computer Applications, Honours in Artificial Intelligence and Machine Learning

Pune, Maharashtra

Aug 2022– June 2025

Nanyang Technological University – Non-Graduating Student (Summer Programme)

Singapore

Bioprinting: Principles and Applications

July 2024

3-D Printing & Additive Manufacturing

EXPERIENCE

Python/AI Developer | January 2025 - May 2025

Goosebump(Tacticone), Pune, India

- Part of a team of 4 members, responsible for developing an **agentic AI based web application** designed for internal use and future launch, to help clients analyze and **optimize their SEO rankings**.
- Key tasks include designing and deploying AI agents for multiple functionalities, building and integrating the full-stack architecture using the tech stack.
- Tech stack: CrewAI, FastAPI, Next.js, Supabase**

Data Analyst Intern – Team Leader | August 2024 - September 2024

Linear Stack, Auckland, New Zealand

- Led a 5-member team to analyze a dataset containing registry, network, process, image, and file events. Key tasks included **visualizing trends, identifying anomalies, and finding critical hosts** based on alert severity. Utilized **machine learning techniques** to predict future patterns from the provided data, showcasing predictions and code.
- Tools: Python, PowerBI, data analysis and visualization libraries, machine learning libraries**

PROJECTS

Android App - IntroSpex | Kotlin, Android Studio, Figma

Developed an advanced settings application for Android devices that provides users with detailed **visual insights** into their **device's system performance**. The app showcases real-time statistics on critical system components, **beyond the standard Android settings**.

Rate My Movie | Java, J2EE, JSP, JDBC, MySQL

Developed a J2EE-based Movie Review and Watchlist web application integrating the TMDb API for movie search and review functionality. Implemented **user authentication**, watchlist functionality, and **database management using Java Servlets, JSP, and MySQL with JDBC**.

EXTRACURRICULARS

Entrepreneurship-Cell ARSH

Symbiosis Institute of Computer Studies and Research

- Active member at **SICSR**, organizing entrepreneurship initiatives and a **Smart India Hackathon-aligned** competition, engaging students in real-world problem-solving.

Volunteer

ExploreIT, NGO

- Participated in Pune-wide **environmental cleanup drives** and helped develop the **Climate Troopers website** using **HTML, CSS, and JavaScript** to promote sustainability.

CERTIFICATIONS

- Business Analytics Course Certification
- Business Ethics Course Certification
- Applied Mathematics Course Certification

TECHNICAL SKILLS

Languages: Java, Python, SQL (MySQL/PostgreSQL), JavaScript, PHP, Kotlin

Frameworks: Express, Node.js, Django, Bootstrap, React, Flask, Springboot, Laravel

Developer Tools: VS Code, Git, Visual Studio, Eclipse, AutoCAD, Figma, Android Studio
