Summary

Undergraduate student pursuing a dual major in Biology and Education at Azim Premji University, with a growing specialization in public health and child welfare. Experienced facilitating inclusive, arts-based educational sessions for children with disabilities through the Snehadhara Foundation's Art for Inclusion diploma program. Strong background in content development for children's welfare, hands-on experience at child care institutions, and healthcare communications. Skilled in designing and reflecting on participatory, therapeutic learning environments, with a deep commitment to improving health equity and educational access for underserved children. Passionate about integrating creative practices, community engagement, and interdisciplinary research to drive inclusive development and long-term well-being.

Education

B.Sc. Biology and Bachelor's in Education, Azim Premji University

August 2023 - Present

Certifications:

eSWaRM Scientific Writing and Reference Management

Institute of Public Health, Bengaluru | **March 2024 - July 2024**

Experience

Trainee API Course (Snehadhara Foundation & Smarathanam Trust for the Disabled)

February 2025 - Present

- Conducted one-hour offline sessions across three terms (15+30+8 sessions) using arts-based therapeutic practices.
- Facilitated activities that fostered inclusivity and a sense of belonging among young beneficiaries with diverse learning and support needs.
- Created detailed session plans and reflective reports before and after each session. - Completed assignments focused on self-care practices to enhance personal and professional awareness as an arts practitioner.

Observer St. Johns Hospital, Bengaluru

June 2024 - July 2024

- Observed weekly rural clinic rotations conducted by hospital doctors, including sessions in eye care, psychiatric care, and general health.
- Sat in on consultations, took detailed notes, and completed reflective reports on each session. - Learned about the operations of anganwadis and free urban health clinics to understand the role of community health workers in public health delivery.
- Participated in field visits to nearby villages with ASHA workers to gain insights into grassroots-level health outreach.

Volunteer Headstreams (Child Care Institution)

June 2023 - June 2023

- Supported children's education and mental wellness at a care institution through engagement activities.

Sayre Therapeutics

July 2023 - July 2023

- Assisted in oncology content development and contributed to creative healthcare marketing materials.
