EDUCATION

- Kalinga Institute Of Industrial Technology** 2025
B.Tech in Computer Science and Engineering CGPA: 8.31
- Pace Junior Science College** 2021
Maharashtra Higher Secondary Board Percentage: 89.5

EXPERIENCE

- Guvi HCL** 06/24- 08/24
Tech Coordination Intern
 - Implemented Large Language Models: Utilized LangChain to design and deploy multiple advanced chatbots using Retrieval-Augmented Generation (RAG) implementation, enhancing support capabilities.
 - Conducted comprehensive data analytics on enrollment data, identifying key metrics and uncovering critical insights that informed strategic decisions.

PERSONAL PROJECTS

- Traffic Sign Detection** 02/24
Repurposed YOLOv8 model for traffic sign detection.
 - Tools & technologies: Python, PyTorch, YOLOv8, Computer Vision, Deep Learning, Data Augmentation
 - Utilized Python and deep learning frameworks to develop a robust model capable of detecting traffic signs in with a precision of 90%.
- Churn Prediction in Telecom Industry** 06/23
Analyzed Consumer Churning in telecom and Predicted Churning with 81% accuracy
 - Tools & technologies: Python, Scikit Learn, Seaborn, Jupyter Notebook
 - Applied Statistical techniques and Visualizations to perform Exploratory Data Analytics on a medium dataset (7000+ rows) and later used Logistic Regression to predict Churning.
- Market Basket Analysis** 06/23
Applied Apriori Algorithm to conduct a basket analysis
 - Tools & technologies: Python, Pandas, Mlxtend, Jupyter Notebook
 - Utilized Apriori Algorithm on a dataset of 35,000+ rows to determine frequently bought items in a grocery supermarket.

TECHNICAL SKILLS AND INTERESTS

Languages: C,C++, Python, Dart, Java, SQL, Bash

Developer Tools: Jupyter Notebook, Colab, PyCharm, Git, VSCode

Frameworks: SciKit learn, Langchain

Cloud/Databases: MySQL, AWS, MongoDB

Soft Skills: Time management, Flexibility, Creativity, Listening

Coursework: OOPs, DSA, DBMS, Computer Networks, OS, Big Data, Data Analytics, Machine learning

Areas of Interest: Data Analytics, Machine Learning, Deep learning, LLMs

ACHIEVEMENTS

- GATE** 2025
conducted by IIT Roorkee
 - Secured a rank of 986 in Data Science and Artificial Intelligence with a score of 573.[Among top 2%]
 - Secured a Rank of 4044 in Computer Science with score of 569.[Among top 2.5%]
- IBM Data Science**
Coursera
 - Comprehensive training on tools and methodologies used in the industry, covering Python, SQL, data visualization, and machine learning techniques.
