A hardworking and passionate job seeker with strong organizational skills eager to learn under working professionals to gain knowledge and improve my skills simultaneously by giving some positive inputs to the company.

Experience

Oasis Infobyte
Web Developer
1st March 2023 – 31st March 2023 (1 month)
New Delhi

The internship was based on web development domain in which I was assigned tasks to develop temperature convertor website, landing page and portfolio website. It helped me in creating and improving web based systems. This involved challenging real world project which made me aware about technologies like Html, CSS, JavaScript.

Project

Airfare Comparison Website

Developed a website facilitating seamless comparison of airfares from multiple airlines, empowering users to find the best deals effortlessly.

Contact Management System

It is made to facilitate storage, retrieval and management of contact information for individuals and organizations. This system will support various features including adding, editing and deleting contacts for better organization.
