CAREER OBJECTIVE

Dedicated and enthusiastic student with a strong passion for psychology, mental health, and human behavior. Aspiring to pursue higher education in psychology to deepen my understanding of trauma, personality development, and behavioral science. Gained hands-on experience through an internship in psychology. Skilled in active listening, empathy, and behavior modification strategies. Eager to expand knowledge in psychological research and clinical practices while contributing to the well-being of individuals through evidence-based interventions.

EDUCATION

CBSE (Class XII) – 2023 | KIIT International School, Bhubaneswar | 87.5%

CBSE (Class X) – 2021 | DOON International School, Bhubaneswar| 65.4

INTERNSHIP & PROFESSIONAL EXPERIENCE

Psychology Intern | MARGA –Mind Wellness Studio

Assisted in psychological assessments, online counseling sessions, special education and behavioral observations.

Worked with individuals experiencing emotional distress, focusing on self-awareness and coping mechanisms.

Gained exposure to counseling techniques for personality-related concerns.

Developed skills in active listening, emotional support, and therapeutic communication.

Special Education & Behavioral Therapy

Shadowed special education facilitator to support to children with intellectual disabilities (ID), ADHD, Autism and behavioral challenges.

Helped in essential life skills such as communication, social interaction, and cognitive learning.

Shadowed special education educator in behavior modification strategies, focusing on emotional regulation and self-expression.

Helped in developing academic skills, including letter identification, reading simple words, and understanding concepts like time and money.

WORKSHOPS & SPECIALIZED LEARNING (AT MARGA)

Workshop on Trauma & Personality Disorders

Explored the psychological and physiological impact of trauma on personality development.

Studied trauma responses, including dissociation, emotional deregulation, and maladaptive coping mechanisms.

Learned about personality disorders, their classifications, symptoms, and underlying psychological factors.

Gained insights into therapeutic approaches for individuals affected by trauma, including trauma-informed care and resilience-building techniques.
