Railway Gurudwara, Opp. J & K Bank,  
Gurudaspur Road, PATHANKOT.

15th May 2024

### SUB : INTERNSHIP COMPLETION LETTER

This is to certify that Ms. Sunita student of LOVELY PROFESSIONAL UNIVERSITY, JALANDHAR, has successfully completed her internship at P. S. COMPUTER, Opp. J&K Bank, Pathankot from 1st April to 15th May 2024.

During her internship, she was exposed to various activities in accounts in computer.

We found her extremely inquisitive and hard working, she was much interested to learn the functions of our core division and also willing to put her best efforts and get into the depth of the subject to understand it better.

Her association with us was very fruitful and we wish her all the best in her future endeavor.

P. S. COMPUTERS  
Name of Bank : J&K BANK

For P. S. Computers

Paramjit Saini

## **Acknowledgement**

I am deeply grateful to [P.s computers] for the opportunity to intern as a computer teacher. This experience has enhanced my teaching skills and deepened my understanding of computer education. I sincerely thank-you [PARAMJIT SAINI] and the team for their guidance and support, as well as the students whose enthusiasm made this journey fulfilling.

## **INTRODUCTION TO THE PROJECT**

### **Introduction**

This report highlights my internship experience as a computer teacher at p.scomputers. The internship provided me with an opportunity to apply my theoretical knowledge in a practical setting, teach various computer-related topics, and interact with students to enhance their learning experience.

During this internship, I was responsible for delivering lessons on basic computer skills. Helping students with hands-on activities and addressing their queries. This role allowed me to develop my teaching techniques, improve my communication skills, and gain valuable insights into educational practices in the field of computer studies.

The following sections detail my roles, responsibilities, challenges faced, and the overall learning outcomes from this enriching internship experience.

## **Vision**

To inspire students with a passion for technology by providing practical knowledge and fostering a supportive learning environment. My goal was to equip them with essential computer skills to thrive in the digital era.

## **Mission**

To empower post-12th-grade students with advanced computer knowledge and practical skills, preparing them for higher education or career opportunities in the rapidly evolving technology field.

## **Core Values**

1. Innovation
2. Knowledge
3. Empowerment

4. Integrity
5. Collaboration
6. Adaptability
7. Excellence

## **Goals**

1. To provide students with a powerful foundation in computer concepts and skills.
2. To prepare students for higher education or entry-level roles in the IT field.
3. To enhance problem-solving and critical-thinking abilities through practical applications.
4. To familiarise students with the latest technological tools and trends.
5. To foster confidence and independence in using technology effectively.

## **My Role as an Intern**

1. Teaching computer fundamentals and software applications to students.
2. Assisting students with hands-on practice and troubleshooting technical issues.
3. Preparing lesson plans and teaching materials for various topics.
4. Evaluating student progress through tests, assignments, and feedback sessions.

5. Providing one-on-one support to address individual learning needs.
6. Promoting a positive and interactive classroom environment for effective learning.

### **Key Responsibilities**

1. Delivering lessons on computer fundamentals, software applications.
2. Developing and organizing teaching material.
3. Guiding students in practical sessions to apply theoretical knowledge.
4. Monitoring and assessing student performance through tests and assignments.
5. Providing technical support and resolving student queries during classes.
6. Encouraging student engagement and fostering a collaborative learning atmosphere.
7. Staying updated with the latest trends and tools in computer education to enhance teaching effectiveness.

### **Challenges During Internship**

1. **Diverse Skill Levels:** Managing students with varying levels of prior knowledge and adapting lessons to meet individual needs.
2. **Time Management:** Balancing lesson planning, teaching, and student support within limited class hours.
3. **Technical Issues:** Handling unexpected technical difficulties with software, hardware, or classroom equipment.
4. **Student Engagement:** Maintaining student interest and motivation, especially in theoretical subjects.

5. **Classroom Dynamics:** Managing a diverse group of students with different learning styles and personalities.
6. **Adapting to New Teaching Tools:** Learning and integrating new teaching technologies into the curriculum.
7. **Assessing Progress:** Ensuring accurate assessment of student learning while providing constructive feedback.

## Learning outcomes

1. I learned to adapt my teaching approach to accommodate diverse skill levels.
2. Improved time management helped me prioritise tasks efficiently.
3. Technical issues enhanced my problem-solving and troubleshooting skills.
4. I discovered creative ways to engage students and keep them motivated.
5. Managing classroom dynamics improved my classroom management abilities.
6. I became proficient in using new teaching tools and technologies.
7. I refined my skills in assessing student progress and providing constructive feedback.

## Conclusion

In conclusion, my internship as a computer teacher at P.S computers was a highly enriching experience that allowed me to develop both professionally and personally. The challenges I enhanced my teaching abilities, problem-solving skills, and classroom management techniques. This experience has strengthened my passion for education and equipped me with the necessary tools to effectively teach and support students in their learning journeys. I am now more confident in my ability to contribute to the field of computer education and am grateful for the opportunity to grow through this internship.

### **Future Preferences**

Moving forward, I aim to further enhance my teaching skills by exploring advanced computer education topics and integrating more innovative technologies into the classroom. I also plan to pursue professional development opportunities to stay updated with the latest trends in computer science and education. My goal is to create a more interactive and student-centred learning environment, fostering a deeper understanding of technology and its applications. Additionally, I aspire to work in an institution that encourages creativity, continuous learning, and the development of critical skills in students.
