EDUCATION

SRM Institute of Science and Technology — Chennai, India

B.Tech in Computer Science and Engineering (CGPA: 9.17)

September 2021 – June 2025

SKILLS SUMMARY

- **Problem-Solving & Strategy:** Strategic Planning, Analytical Thinking, Negotiation Skills, Leadership.
- **Quantitative Analysis:** Financial Ratios, Statistical Modeling, Predictive Analytics, Data Visualization.
- **Technical Proficiency:** Python, SQL, R, Tableau, Power BI, TensorFlow, Keras, LightGBM.
- **Business Tools:** Excel, PowerPoint, Google Analytics, Financial Statements.

WORK EXPERIENCE

Associate Intern - Advisory

Baker Tilly, Bahrain *October 2024 – Present*

- Advised a leading hospitality player on market expansion and repositioning strategy, conducting competitor analysis and opportunity mapping that identified 20% revenue uplift potential aligned with Vision 2030 and GCC tourism growth.
- Developed end-to-end sell-side collateral for a regional construction group and an automotive distributor, including Investment Memorandums (IMs), financial models, and strategic narratives to support M&A execution.
- Collaborated with government stakeholders on a feasibility study for a national cyclotron facility, delivering CAPEX/OPEX projections and public health ROI analysis, supporting an investment decision projected to benefit 1M+ residents.
- Delivered actionable insights via market sizing, competitive benchmarking, and opportunity assessments, enabling clients to uncover 15–25% growth opportunities in underpenetrated markets.
- Worked with cross-functional teams to drive data-backed strategic recommendations, achieving up to 18% improvements in operational efficiency and identifying key investment risks across multi-sector engagements.

Business Development Consultant

Cube, California (Remote) *April – September 2024*

- Generated over 800 high-quality leads, directly contributing to revenue growth and maintaining a high conversion rate.
- Designed and executed targeted outreach strategies, improving client acquisition efficiency.
- Conducted competitive market analysis to enhance targeting and refine service offerings, ensuring alignment with client needs.

Operations and Finance Intern

Kulsha – Bahrain Financial Harbour, Bahrain *December 2023 – January 2024*

- Optimized operational workflows, reducing fulfillment times by 25% and increasing customer retention by 20%.
- Conducted financial forecasting to establish achievable budget targets, enhancing operational decision-making.
- Performed in-depth market research and competitive analysis, identifying areas for growth and investment.

PROJECTS

Financial News Sentiment Analysis using BERT Model

- Engineered a sentiment analysis model to evaluate financial news headlines, predicting their influence on stock market behavior with enhanced accuracy.
- Leveraged the BERT model to elevate sentiment classification accuracy from traditional models (~75%) to 83%, leading to more reliable insights for financial forecasting.

Predictive Credit Risk Modelling and Analysis using Light GBM

- Designed and implemented an advanced credit risk prediction model using LightGBM, significantly improving accuracy to 83%, outperforming traditional models.
- Analyzed a comprehensive dataset containing 32,000 rows and 12 feature columns, utilizing robust feature engineering and selection techniques to optimize model inputs.

Capital Asset Pricing Models using ML and DL strategies

- Conducted an in-depth portfolio analysis using the Capital Asset Pricing Model (CAPM) to evaluate expected returns for various asset combinations, including AAPL, BA, T, MGM, AMZN, IBM, TSLA, and GOOG.
- Analyzed a dataset of 20 asset combinations, calculating expected returns based on CAPM principles, ranging from 9.42% to 20.12%.
- Recommended top 5 and bottom 5 portfolios to guide investment decisions based on CAPM-driven expected returns, supporting data-driven financial planning and optimization.

CERTIFICATIONS

- **Introduction to Financial Engineering and Risk Management**, Columbia University.
- **Fundamentals of Quantitative Modeling**, University of Pennsylvania.
- **Principles of Financial Accounting**, IESE Business School.

LEADERSHIP INITIATIVES

Event Coordinator, Aaruush (National Techno-Management Fest) — SRM Institute of Science and Technology

- Coordinated initiatives for Aaruush, a national-level fest attended by 50,000+ participants, focusing on fundraising and event execution.
- Successfully raised substantial funds through the **SRM Run**, benefiting various charities and NGOs.
- Facilitated the participation of over **500+ children** in community events, raising funds and awareness for local causes.
- Played a pivotal role in planning and executing flagship events, ensuring seamless coordination and execution.

VOLUNTEERING EXPERIENCE

iVolunteer — Remote *March 2024 – Present*

- Narrated stories to children in native languages, fostering cultural connection and literacy.
- Enhanced NGO visibility by 20% through tailored branding and audience engagement strategies.

IEEE Women in Engineering (SRM Chapter) — Chennai, India *October 2023 – Present*

- Led professional development programs benefiting 1000+ participants through workshops and certifications.
- Improved event attendance by 40% using data-driven SEO and digital marketing strategies.
