A motivated individual who has completed 12th grade and pursued a Bachelor of Technology (B.Tech) up to the 3rd year. Although a recent academic dropout, I possess a solid foundation in engineering principles, problem-solving skills, and technical knowledge gained during my time in the B.Tech program. Eager to explore new opportunities, contribute my skills, and continue learning through hands-on experience in a dynamic environment.

Skills include basic programming, project management, and teamwork, with a passion for technology and innovation. Open to internships or entry-level roles to grow and develop further professionally.

Willing to relocate: Anywhere
