KEY ACHIEVEMENTS

Global Ranking in Finance Simulation

Ranked 21st globally in AmplifyME Finance Accelerator, demonstrating strong skills in real-time market trading and portfolio decision-making under pressure.

Prestigious Finance Certifications

Completed finance programs from top institutions — Wharton, Yale, and Financial Edge's Investment Banker Micro-Degree.

Agile Project Management Certification

Certified Professional Scrum Master I (PSM I), skilled in agile execution and team collaboration.

Strong Communication & Soft Skills

Completed communication fundamentals and soft skills certifications to complement technical finance knowledge.

Practical Investment Banking Experience

Completed JPMorgan Chase Virtual Internship simulating M&A deal screening, client communication, and financial modeling.

SUMMARY

Commerce graduate from Garware College of Commerce (SPPU) with a strong foundation in finance, shaped by global certifications from Wharton (University of Pennsylvania), Yale University, and Financial Edge's Investment Banker Micro-Degree — the same program used by J.P. Morgan and Goldman Sachs. Proficient in financial modeling, including 3-statement models, DCF, LBO, and M&A analysis, supported by accounting knowledge and a NASBA-accredited CPE certificate. Gained front-office investment banking exposure through JPMorgan's Virtual Experience and real-time capital markets training via AmplifyME's Finance Accelerator. Certified Professional Scrum Master I (PSM I), combining agile project execution with financial acumen. Passionate about high-impact finance roles that blend analysis, execution, and continuous learning.

PROJECTS

Financial Modeling – The Hershey Company (2021–2026)

05/2025 - 06/2025

Pune

Integrated granular assumptions across revenue growth, operating margins, capital expenditures, and working capital to construct fully linked, forward-looking financial statements for The Hershey Company (2021–2026).

Engineered comprehensive debt structuring, interest modeling, and dividend forecasting while deriving high-impact performance metrics such as ROIC, EBITDA margins, and Net Debt/EBITDA.

Validated end-to-end model integrity through dynamic scenario testing, cross-statement balancing, and consistency checks across the entire forecast horizon.

- Built a detailed 5-year financial model of Hershey Company, providing accurate valuation and strategic insights for investment decisions.
