

Name: Sanjana bharadvaj

Email: sanjanabharadvaj97@gmail.com

Phone: +91 9061255244

Address: House no 84, Varikkasseril house, Vikas nagar, Maradu, Kochi

College: Vellore Institute of Technology, Vellore

Objective

Motivated and inquisitive 3rd-year Biotechnology undergraduate at Vellore Institute of Technology with a strong academic foundation and a deep passion for pharmaceutical research and innovation. Eager to apply theoretical knowledge in a real-world setting and contribute meaningfully in healthcare and biosciences. Seeking a dynamic internship opportunity to gain hands-on experience and develop professionally within the pharmaceutical industry.

Education

B.Tech in Biotechnology

Vellore Institute of Technology, Vellore

2022 – 2026

CGPA: 7.45/10

Class XII (CBSE)

Chinmaya vidyalaya, kerala – 2021

Percentage: 82.6%

Class X (CBSE)

Chinmaya vidyalaya, kerala – 2020

Percentage: 95.2%

Key Coursework

- Molecular Biology
- Bioprocess Engineering
- Immunotechnology

- Genetic Engineering
 - Pharmaceutical Biotechnology
 - Microbiology
 - Biochemistry
 - Bioinformatics
-

Project

Title: *Antibacterial Activity of Plant Extracts on Drug-Resistant E. coli*

Duration: Jan 2024 – Mar 2024

Description:

Conducted a lab-based study to evaluate the antibacterial potential of various plant extracts (e.g., neem, tulsi, garlic) against multi-drug resistant strains of *E. coli*.

- Prepared and cultured resistant *E. coli* strains
- Performed agar well diffusion method to analyze inhibition zones
- Recorded and analyzed data using Excel
- Found significant inhibition by garlic extract, suggesting natural alternatives in antimicrobial research

Skills Gained: Microbiology techniques, sterile handling, data analysis, scientific documentation

Technical Skills

- Microsoft Excel, Word, PowerPoint
- Basic Python (BioPython, Matplotlib)
- BLAST, ClustalW
- PyMOL Visualization
- NCBI & PubMed research tools
- Report Writing

Lab Skills

- PCR & Gel Electrophoresis
- DNA Isolation
- Spectrophotometry (UV-Vis)
- Bacterial Culture & Staining
- Chromatography (introductory level)
- Aseptic Techniques

Soft Skills

- Critical Thinking
- Effective Communication
- Team Collaboration
- Strong Work Ethic
- Eager to Learn

Certifications

- **Workshop on Genome Informatics.**
- **completed Course on Astrobiology by University of Edinburgh**
- **International space science course by Indian astrobiology research foundation**
- **Completed Course on cell culture technology by IIT Kanpur**
- **Completed course on international space science course by Indian astrobiology research foundation.**
- **Completed mass spectrometry job simulation by Thermofisher.**
- **Completed course on cancer biology by John Hopkins University.**

Areas of Interest

- Pharmaceutical Biotechnology
 - Drug Development
 - Clinical Research
 - Quality Control & Assurance
 - Regulatory Affairs
-

Why Me?

I believe I am an ideal candidate for this internship at your esteemed organisation because of my strong academic foundation, hands-on lab experience, and deep interest in pharmaceutical research. I may not have years of experience, but I bring fresh enthusiasm, discipline, and a willingness to learn quickly in a real-world research environment. My proactive approach to gaining practical skills through lab work and certifications shows my genuine commitment to this field. I am excited to contribute to and grow with an organization that's making a real impact on global health.

Extra-Curricular

- Member of ALPHA BIO CELL [University Biotechnology Club]
- Active participant in biotech hackathons and ideathons conducted by VIT.
- Active participant in academic seminars and science communication events.
