Workshops & Trainings

Somatic and Bottom-Up Trauma Work

Ms. Sanskriti Singh – *All About Psychology*

June 2025

Online

- Explored body-based trauma processing, grounding techniques, and the neurobiology of trauma.

Mastering Emotional Intelligence

Chumki Bose – *MindTribe Healthcare Pvt. Ltd.*

June 2025

Online

- Built skills in emotional regulation, self-awareness, and therapeutic communication.

Research Projects

Conducted under faculty supervision as part of coursework

Unfolding the Layers of Therapy | *Listening Guide Method, Psychodynamic Practice, Reflexivity*

- Applied Carol Gilligan's Listening Guide Method to analyze therapeutic dialogue in *In Treatment*, examining how voice, affect, and narrative discontinuities reveal underlying psychodynamic processes.
- Identified intersecting themes of transference, countertransference, emotional containment, and ethical ruptures within the therapist-client relationship.
- Engaged in reflexive praxis as an observer-researcher to interrogate boundaries, positionality, and emotional subjectivity in the therapeutic encounter.

Languages

- English – Fluent (Written and Spoken)
- Hindi – Native Speaker

Areas of Interests

- Reflective practices and self-actualization tools
- Intersection of psychology with cultural, spiritual, and philosophical frameworks
- Community-based mental health interventions
- Trauma and resilience
