PROJECT EXPERIENCE

Project Rakshak - An Agrobot

Team Leader

Jul 2022 - Nov 2023

- Engineered a tech-enabled advanced scarecrow by integrating sensors and alert mechanisms, aimed at achieving a significant reduction in crop damage caused by wildlife and unauthorized access across targeted small-scale farms.
- Customized the scarecrow's design to align with traditional agricultural practices, for achieving improved farmer adoption rates enhanced field protection effectiveness.
- Led project presentation at prestigious platforms such as National Exhibition (Akhil Bhartiya Shiksha Sangam). Additionally, showcased the MVP at UNICEF India's Innovate for Equality invite-only event.

Yatra

Solo Project

Jul 2022 - Jul 2023

- Developed a comprehensive platform that aims to link travelers to verified local businesses, to foster authentic cultural exchanges & prevent prevalent tourist scams in specific regions.
- Tried implementing responsible tourism initiatives by partnering with a nearby NGO (that trained women in cultural arts), to promote artisan sales and sustainable economic growth within communities.

LEADERSHIP EXPERIENCE

Atal Tinkering Lab (ATL) - STEM Lab

Vasant Kunj, New Delhi

Core Team Lead

Jul 2022 - Jul 2024

- Led STEM initiatives as a part of the school's Atal Tinkering Lab's (ATL) Core Team Member.
- Mentored younger students in project ideation, prototyping, and presentation skills.
- Managed and coordinated multiple school ATL fests, including the flagship event ATLENT, ensuring smooth event execution.

ADVOCACY PLATFORMS & PANELS

- Panelist, UNICEF - Innovate for Equality** – Advocated for "Innovate for equality" alongside eminent figures like Smt. Meenakshi Lekhi (Former MP) and Ms. Cynthia McCaffrey (UNICEF India Representative).
- Interviewee, Doordarshan - National Television** – Discussed technology-driven solutions for equality and inclusive innovation on a national platform.

WORK EXPERIENCE

GirlScript Summer Of Code

Remote

Open Source Contributor

Jul 2025 - Present

- Enhanced project functionality by contributing to over 5 open-source repositories, implementing key features and bug fixes that improved usability metrics.
- Optimized application performance and user experience by applying best practices in NextJS, ReactJS, and REST API integrations, resulting in a significant reduction in post-deployment bugs.
