RESUME

ARADHANA ESTHER KABIRAJ

BIOTECHNOLOGY GRADUATE

PROFESSIONAL CAREER OBJECTIVE

Recent biotechnology graduate student to become motivated and ideally experienced with proven ability and strong foundation in research and teamwork leading skills seeking an opportunity in a industry wherein I would get an opportunity to learn about work experience. An independent and self-motivated graduate looking for an entry-level position where I can utilize the extensive knowledge I have gained during my course to enhance team productivity and contribute effectively to the company.

SKILLS

Lab Management Skills

Research Skills

Problem Solving and Critical Thinking Skills

Teamwork and Communication Skills

Software and Computer Skills - MS Excel, MS Word, MS Powerpoint

EXPERIENCE

I did a research at an undergraduate level titled "**Formulation and Evaluation of Polyherbal Medicinal Jellies: Specially for Diabetic Patients**" and leaded my team for which I obtained full marks and professors appreciation. It helped me with problem solving skills, research and analytical skills, stronger writing and communication skills and boosted my passion, personal growth and confidence which will be valuable for me across a wide range of career and work situations.
