Accomplishments

- Mastering NEXTgen media with AI tools

Jul 2025

I developed a strong foundation in AI and Machine Learning, with a focus on their impact on media as well as content creation. Learnt about powerful AI tools such as Grok, Deepseek etc.

- Human Resources: Recruitment and

Jul 2025

selection

I completed a course focused on strategic, fair and effective hiring practices.

• Developed skills in candidate sourcing, screening, and interviewing techniques tailored to organizational needs.

- Leadership for inclusion

Jul 2025

I completed a course focused on leadership and collaboration in educational settings. I learned how to work with others, lead in small ways and think about how everyone's background and experiences shape learning.

- Content Marketing Basics

Jul 2025

I completed the Content Marketing Basics course with a 100% score on the final assessment. • Foundations of content marketing: • Developing effective content strategies tailored to target audiences • Managing content across platforms using tools like WordPress, Mailchimp, Hootsuite, and analytics tools • Applying principles of user behavior, branding, and content distribution to drive engagement I'm excited to apply these skills to help create impactful marketing campaigns and support brand storytelling.

- Digital Marketing

Jul 2025

I completed a Digital Marketing Fundamentals course, gaining a strong foundation in essential areas such as content creation, SEO strategy, website performance, social media and video marketing, and email campaign management.

- Social Media Marketing

Jul 2025

I completed an intensive course designed to build foundational and practical knowledge in social media marketing. Through six comprehensive lessons, I explored: • How social media algorithms work • Competitor benchmarking and audience analysis • Organic strategy development using tools like Semrush • Influencer marketing campaign planning and execution • Social media performance tracking and analytics

Hobby and interests

Outside of academics, I enjoy playing basketball, which has helped me build teamwork, discipline, and strategic thinking. I also have a strong interest in research, as I enjoy exploring new ideas, analyzing trends, and finding creative solutions, skills that I believe translate well into marketing. Alongside these, I am curious and eager to learn, always looking for opportunities to develop both personally and professionally. I enjoy playing sports and won best female athlete at our sports day 2025.

I also participate in various MUN's and cultural programs such as EUMIND which enrich my communication and collaborative skills further.

I also placed 3rd in Think Tank - A competition to pitch a new business idea.

Won 1st place in Change Project.
