Saiyad ul Ajaib, New Delhi, Delhi 110030

Subject: Application for Internship/Volunteer Position

Dear Hiring Team,

I have always believed that true fulfillment comes from giving back to society, and I am very eager to dedicate my time and skills to support the meaningful work that CRY does. The well-being and rights of children shape the future of our world, and I want to be part of an initiative that actively works towards creating lasting, positive change. My aspiration is to contribute to CRY's mission in any way possible—helping ensure that every child receives the care, protection, and opportunities they deserve.

While my professional background lies within the data analytics, with expertise in Power BI, SQL, Tableau, MS Suite and allied skills, I see these as tools that can assist in the larger goal of social impact. If my skills can support CRY in any way like analyzing outreach efforts, measuring program effectiveness, or enhancing operational efficiency, I would be honored to contribute. However, my primary motivation remains to be a part of something greater than myself—working towards a world where every child has a fair chance at life.

Given my current work commitments, I would love to explore opportunities to contribute remotely or on weekends. I am eager to learn more about how I can support CRY's initiatives and would appreciate the opportunity to discuss this further.

Thank you for your time and consideration. I am attaching my CV herewith hoping to be a small part of CRY's incredible journey towards building a better future for our children.

Best regards,
Aastha Gandhi
