3.5 Years Experience | Based in Karnataka, India

Professional Summary

Results-driven software engineer with 3.5 years of experience specializing in **React Native mobile application development and ReactJS web development**. Proven expertise in building scalable, high-performance apps, websites and collaborating cross-functionally to deliver seamless user experiences. Skilled in debugging, performance tuning, and REST API integration. Known for working effectively with QA and backend teams to ensure application reliability and continuous improvement.

Technical Skills

Languages: C, C++, JavaScript, TypeScript, HTML, CSS, Java (Basics)

Frameworks & Libraries: React Native, React.js, Redux, Redux Toolkit, Axios, Firebase

Tools: Git, ESLint, Prettier, Postman, JIRA, Figma, Visual Studio Code

API Interaction: RESTful APIs (Axios, Fetch)

Platforms: Android Studio, Xcode, Firebase Crashlytics, App Store, Google Play

Processes & Support: Debugging, RCA Documentation, Agile/Scrum, Production Issue Resolution, Customer Escalation Handling

Professional Experience

Robosoft Technologies – Software Engineer

Udupi, India | August 2021 – Present

Key Responsibilities:

- Developed and maintained **high-performance cross-platform mobile applications** using **React Native**, deployed to both Android and iOS platforms.
- Led development of complex modules and **end-to-end features**, collaborating with **design, QA, and backend teams** in an Agile environment.

- Designed and implemented **scalable frontend architectures**, reusable UI components, and optimized performance across app versions.
- Ensured **application stability and reliability** by resolving critical issues using **Firebase Crashlytics**, custom logs, and production monitoring tools.
- Contributed to improving **developer workflows**, enforcing coding standards with **ESLint, Prettier**, and enhancing code maintainability through documentation and code reviews.
- Mentored junior developers, reviewed code for performance and best practices, and guided them through sprint tasks and production support.
- Actively participated in **sprint planning, technical discussions, and release cycles**, contributing to seamless integration and faster time to market.

Notable Projects:

Invesco – Mutual Fund App & Investor Web Portal

- Built key features for the mobile app using **React Native**, and contributed to the web platform using **React.js**.
- Integrated **Redux Toolkit** for efficient and scalable state management across large modules.
- Maintained **design system consistency**, ensuring UI/UX parity between Android, iOS, and web.
- Participated in **critical release cycles** and coordinated directly with QA to fix high-priority bugs under tight deadlines.

Sales Assist App – RNLIC (Reliance Nippon Life Insurance)

- Designed reusable UI components for user onboarding and transaction workflows.
 - Integrated **Firebase Analytics**, Crashlytics, and performance monitoring tools to proactively address issues.
 - Collaborated with backend engineers and QA teams to reduce app crashes and improve user stability.
-

Education

Bachelor of Engineering (B.E.) – Electronics & Communication

St Joseph Engineering College, VTU – Karnataka, India

Graduation Year: 2021

Certifications & Workshops

- C Programming Language – MICE
 - C++ Programming Language – NIIT
 - Cybersecurity Essentials – Cisco Networking Academy
-
