

JHALAK SINGHAL

Biotechnology Graduate | GATE Qualified

✉ jhalaksinghal17@gmail.com | ☎ +91-99979-79041 | ✉ Meerut, India

OBJECTIVE

Detail-oriented and enthusiastic Biotechnology graduate with hands-on experience in wet lab techniques, data analysis, and instrumentation. Looking for a dynamic entry-level role to apply academic knowledge and practical skills in a research or industrial biotechnology setting.

EXPERIENCE

HTH Laboratories Pvt. Ltd., Panipat — Intern (Feb 2025 – May 2025)

- ☐ Completed 3-month skill training in Wet Chemical and ICP Labs.
- ☐ Operated laboratory equipment and developed technical competencies.
- ☐ Enhanced organizational and analytical skills.

EDUCATION

- ☐ B. Tech in Biotechnology, Shobhit University, Meerut (2021–2025)
CGPA: 9.26
- ☐ Intermediate (PCB), Dayawati Modi Academy, 2019
Score: 94.8%
- ☐ Matriculation, Dayawati Modi Academy, 2017
CGPA: 10.0

SKILLS

- ☐ **Laboratory Techniques:** Gel electrophoresis, Gram staining, Plant tissue culture & Microbiology techniques, Autoclave, pH meter, Pipette handling, Sample, Media and Buffer preparation.
- ☐ **Instrumentation:** Spectrophotometry, Wet chemical analysis, Centrifuge, PCR, HPLC, LC-GC, ICP, Microscopy
- ☐ **Software:** MS Excel, PowerPoint, Basics of Bioinformatics.
- ☐ **Soft Skills:** Scientific writing, Teamwork, Problem-solving, Strong Communication, Multitasking.

ACCOMPLISHMENTS

- ☐ GATE Qualified –AIR: 1962, 5367
- ☐ Secured 1st position in college with 10 SGPA in 6th semester.
- ☐ Excellence Shield and Scholarship awardee for excellent academic performance.
- ☐ Scholar Badge recipient for 5 consecutive years.

- Abstract on “**Overpopulation: One Cause Multiple Effects**”, presented at 108th Indian Science Congress, Environmental Science Section (Jan 3–7, RTM University).
-

PROJECTS

- **Isolation and Staining of Bacteriophages**: Isolated bacteriophages from water samples and performed staining for microscopic observation.
 - **MBRT of Milk Sample**: Assessed microbial load in milk using Methylene Blue Reduction Test.
 - **Tissue Culture of *Spirulina***: Cultured ***Spirulina platensis*** under sterile lab conditions to study its growth and applications.
 - **TDS & TSS Analysis**: Conducted Total Dissolved and Suspended Solids analysis on various water samples.
 - **Food Adulteration Testing**: Performed chemical tests to detect common adulterants in food samples.
 - **DNA Extraction (CTAB Method)**: Isolated genomic DNA from plant tissues using the CTAB protocol.
 - **Neem Nanoparticle Synthesis**: Synthesized bio-nanoparticles using neem extract for antimicrobial studies.
 - **ICP Analysis of Heavy Metals**: Analysed food samples for heavy metal content using ICP-OES, AAS, MS..
-

SEMINARS AND CERTIFICATE

- Certificate: Skill Training in Heavy Metal Analysis (ICP techniques), Stem Cell Research webinar
 - Webinar: National Intellectual Property Festival (CSIR), Intellectual Property Rights in Biotechnology.
 - Social Internship Program (Paryavaran Sanrakshan Gatividhi) by Dainik Jagran.
-

INDUSTRIAL VISIT

Patanjali Yogpeeth, Haridwar

- Observed manufacturing of wellness products.
- Learned about integration of traditional practices with biotechnology.

Yakult Danone India Pvt. Ltd., Sonipat

- Witnessed probiotic drink production.
- Understood hygiene and quality control practices.

Fare Labs, Gurugram

- Practical exposure to food and water testing protocols
 - Experienced Laboratory operations in a NABL- accredited environment.
-
