CBSE (Class X)	2019	Ryan International school, Vasant Kunj, New Delhi	95.2 %

WORK EXPERIENCE

Social Media Intern, Mindtribe

(June'25- August'25)

- *During my time as a Social Media Intern at Mindtribe, I have gained valuable experience in creating and managing content that blended psychology with engaging social media strategies. I learned how to design posts that were not only visually appealing but also informative, making complex psychological concepts accessible to a wider audience. This role has enhanced my understanding of how digital platforms can be used to spread awareness, foster meaningful conversations, and connect people with psychological insights in a creative and impactful way.*

Intern, Unique Psychological Services

(March'25 - May'25)

- *Gained hands-on experience in clinical psychology through active participation in assessments, case discussions, and therapeutic observations. Studied and explored various therapeutic techniques, including cognitive-behavioral, humanistic, and psychodynamic approaches. Had the opportunity to conduct psychological assessments under professional supervision, enhancing practical understanding of test administration and interpretation. Observed live therapy sessions and engaged in reflective discussions to better understand client-centered approaches and ethical considerations in practice.*

Teaching Intern, Teach for India

(June 2024- August 2024)

- *The internship provided me with practical classroom experience, allowing me to apply educational theories in real time. Helped me improve my communication skills and ability to connect with students which are crucial for effective teaching. Additionally gave me a lot of insight into lesson planning, classroom management and student assessment.*

POSITIONS OF RESPONSIBILITY/LEADERSHIP EXPERIENCE

- **Reports head, Jesus and Mary Education Programme**
Played a key role in the core team of Jesus and Mary Education Programme aimed at empowering underprivileged women and children through quality education. Led the Reports Department, overseeing the documentation, analysis, and presentation of program outcomes, progress and impact reports. Collaborated with educators, volunteers, and local communities as a part of the initiative. Contributed to strategic planning and decision-making as a member of the core team, helping scale and improve the programme's effectiveness.

ACADEMIC ACHIEVEMENTS AND PROJECTS

- *Under the guidance of my professors, I have been actively involved in various academic research projects as part of my curriculum. These projects covered diverse areas such as adaptive behaviour, organizational behaviour, social psychology, and moral development in children. Through this work, I gained hands-on experience in conducting literature reviews, collecting and analyzing data, and applying research methodologies. I also had the opportunity to administer and interpret standardized psychological assessments, including the Millon Clinical Multiaxial Inventory (MCMI) and the State-Trait Anxiety Inventory (STAI). Additionally, I participated in mock counseling sessions, which helped me integrate theoretical knowledge with practical application and deepen my understanding of therapeutic processes. These experiences have strengthened my research, analytical, and interpersonal skills within the field of psychology.*

SKILLS:

I possess strong teaching, communication, interpersonal, and management skills developed through academic, research, and fieldwork experiences. My background in psychology has equipped me with the ability to administer and interpret standardized assessments such as the MCMI and STAI, conduct basic counseling sessions under supervision, and engage in meaningful case discussions. I am skilled in research design, data analysis, and report writing, with a clear understanding of ethical considerations in psychological practice. My ability to work collaboratively, maintain professional boundaries, and adapt to diverse settings further enhances my effectiveness in both academic and applied psychology environments.

TOOLS:

- *Excel, Canva, Microsoft Office, Google sheets*
