SUMMARY

I am inherently practical, basing my thoughts on reality, not imagination. I like systematic approaches and planned routines. I am a perfectionist. I believe that my work is a game. A very serious game. The pleasure I put in my job puts perfection in the work. One of my attributes is my ability to be on time for which I'm often admired. I believe that learning is a life long process. It never ceases. And if given the opportunity, I will never let down my mentor.
