LANGUAGE

TAMIL
ENGLISH
HINDI

I am a Master of Public Health student specializing in Health Service Management, with a background in Biotechnology.

I have a special interest in maternal and child health, immunization, project management and public health research.

CURRENT RESEARCH

- Assessing HPV Vaccine Behaviour among Health Science Students in Chengalpattu.
- Assessing Barriers to Healthcare Utilization among Differently Abled Individuals in India: A Secondary Analysis of NFHS-5.

TRAINING & WORKSHOPS

- Completed a **4-day training program on Health Project Management** at SPH, SRMIST.
- Attended a **3-day workshop on Proposal Writing** at SPH, SRMIST.
- Completed a **Scientific Writing course** through NPTEL.

PRESENTATIONS & ACHIEVEMENTS

- Presented a research paper on "**HPV Vaccine Behavior Among Final-Year Medical Students in Chengalpattu**" at the 3rd **International Conference** on HEI Challenges & Solutions for SDG 2024 (SDG 3) at SRM IST.
- **Awarded Best Idea at the 24-Hour Make-a-Thon** (BUG TO BUSINESS, SVCE) for an innovative Green Technology solution.
- Presented the **paper "Exploring the Electrogenic Potential of Symbionts for Sustainable Green Power"** at TICHSCON'25, an international conference co-organised with Taylor's University, Malaysia (April 2025).
- Published the above **paper** in the TICHSCON'25 **Proceedings on Green Process Design and Sustainable Chemical Manufacturing**.
