EDUCATION

Ajay Kumar Garg Engineering College

Bachelor of Technology in Computer Science and Engineering, Honors in Cyber Security

• GPA: 7.92 / 10

Ghaziabad, UP

Nov 2022 – May 2026

EXPERIENCE

Green Build

AI/ML Intern

Jun 2025 – Aug 2025

Hybrid

- Built a lightweight computer vision model classifying 650+ plant species, cutting manual lookup time by 30%.
- Applied unsupervised learning techniques (clustering, anomaly detection) to identify plant health outliers and improve irrigation planning.
- Annotated 5,000+ native plant images in collaboration with horticulture teams for offline model training and deployment.

PROJECTS

Bias in Automated Recruitment – Research paper | XAI

Aug 2025 – Oct 2025

- Injected name-based gender and racial bias into a resume dataset to simulate real-world hiring discrimination.
- Used LIME and SHAP to audit a Logistic Regression classifier and identify systemic bias patterns.
- Found SHAP to deliver more stable, global, and interpretable explanations for fairness auditing.

Transaction Risk Modeling – Data Imbalance and Feature Drift | DT, RFC, NN

Apr 2025 – Jun 2025

- Processed 284,807 transaction records; used SMOTE and random undersampling to address fraud class imbalance.
- Trained Decision Tree, Random Forest, and Conv1D-based NN; tuned hyperparameters via GridSearchCV.
- Achieved 82.5% recall and 88.5% AUC-ROC; prioritized minimal false negatives through threshold tuning.

Comparative Study of CNN Architectures – Image Forgery Detection | DL

Dec 2024 – Feb 2025

- Classified tampered vs. authentic images using CASIA v2 dataset (5,123 samples) and deep CNN architectures.
- Compared ResNet18, DenseNet121, MobileNetV3, and ConvNeXt-Tiny; achieved 92.6% average F1 score.
- Maintained 86% precision under image noise (Gaussian, salt-and-pepper); robust to minor perturbations.

CERTIFICATIONS

- Generative AI Professional – Oracle
- AI Agent Architect – IBM
- AWS Technical Essentials – Amazon Web Services
- Data Analytics Simulation – Deloitte
- Data Science Job Simulation – Boston Consulting Group
- Deep Learning – Kaggle
- Cloud Skills Boost – Google Cloud
- Machine Learning – Great Learning

ACHIEVEMENTS AND HONORS

- Scored 512 in GATE 2025 (CS), ranking among the top 3.7% nationwide.
- Selected as a mentor to guide 120+ juniors in core CS subjects under the Academic Support Program.
- Won 2nd place in intra-college debate competition among 85+ participants.
- Advanced to Round 3 of Anveshana 2024 (Agastya Foundation), leading a 3-member team to a top-10 ranking.
- Achieved 1664 ELO on Chess.com (98.6 percentile), demonstrating advanced strategic thinking and problem-solving.

TECHNICAL SKILLS

Languages: C, C++, Python, SQL, R, Visual Basic, Nim, HTML, CSS, JavaScript

ML/DL: scikit-learn, XGBoost, LightGBM, TensorFlow, Keras, PyTorch, SHAP, LIME, CUDA, OpenCV

Data Science & NLP: pandas, NumPy, Matplotlib, Seaborn, Feature Engineering, SMOTE, Power BI, NLTK, spaCy, Hugging Face Transformers, TF-IDF, tokenization, sentiment analysis

Deployment & DevOps: Docker, Vercel, GitHub Actions (CI/CD), Streamlit, Gradio

Design/UI: Figma, Adobe Photoshop, Illustrator, Canva

Tools & Platforms: Git, GitHub, VS Code, AWS S3, EC2, Google Colab, Jupyter Notebook, Tableau, Anaconda
