RITISHA RAJAN

PROFILE

I am a driven student researcher with a focus on the intersection of Cognitive Science, Behavioural Neuroscience, and Consumer Psychology. My passion is studying core cognitive concepts, specifically Decision-Making, Attention, and Motivation and connecting them to macro-level social and community dynamics to achieve a more holistic understanding of human behaviour. My skill set is tailored for impactful research in dissecting Group Dynamics and Influence, leading end-to-end Data Collection and Analysis, and demonstrating proven adaptability and problem-solving in complex research as well as industry environments. My goal is to partner with organisations and individuals focused on Behavioural Architecture and Consumer Insights to apply a rigorous methodology that shapes behaviour, products, and policy.

EDUCATION

MSc. Applied Psychology (Community Psychology) | 2025-2027

- Jindal School of Behavioural Sciences, OP Jindal Global University

BA in Psychology and English | 2021-2024

- Dept. of Psychology & Dept. of Languages, St. Joseph's University
-

WORK AND RESEARCH EXPERIENCE

Research - Scoping Review: Vulnerability Risks in Adolescents and Problem Behaviours | 2023-PRESENT

- Executed comprehensive searches across multiple databases (e.g., PubMed, PsycINFO, Scopus) using advanced search strategies.
- Screened and selected over 50 relevant papers.
- Extracted, synthesized, and critically evaluated data on vulnerability factors.

- Used a systematic approach, demonstrating attention to methodological rigour.
- Critically evaluated the quality and credibility of research, which is fundamental to all academic work.

Research Assistance and Fieldwork (Data Collection and Data Entry) | 2023

- Administered a confidential questionnaire to adolescent students in a school setting, ensuring adherence to research protocols and maintaining a professional and ethical demeanor.
 - Managed the end-to-end data entry process for all collected questionnaires, utilizing Excel to create a clean, organized, and analyzable dataset.
 - Worked directly with students and school staff, effectively explaining the purpose of the study and building rapport to facilitate a smooth data collection process.
 - Maintained strict confidentiality of all participant data, demonstrating a strong understanding of ethical research practices.
-

SKILLS

Hard Skills

- Data Analysis & Software: SPSS, Data visualisation and Entry, Data Collection, Microsoft Office, Canva
- Behavioural Science: Behaviour Analysis, Human-Error Analysis, Group Decision-Making, Group Dynamics and Influence

Soft Skills

- Time Management
 - Strategic Planning
 - Problem Solving
 - Critical and Creative Thinking
 - Adaptability
 - Teamwork
 - Interpersonal Skills
-

AWARDS AND CERTIFICATIONS

- SUBJECT PROFICIENCY AWARD - PSYCHOLOGY (2020)
- Certifications (SWAYAM MHRD 2024): Cognitive Ergonomics, Human Behaviour, Applied Social

Psychology

- Certification (Coursera 2022): Big Data, Artificial Intelligence, and Ethics

LANGUAGES

English, Malayalam, Hindi
