PROFESSIONAL SUMMARY

Data-Driven, Computer Science graduate proficient in Data Structures & Algorithms, ML, Cloud (AWS, Azure, Salesforce), and Data Analytics. Built scalable ML models, ETL pipelines, and dashboards for actionable insights.

SKILLS

Programming	Python, Java, C/C++, R, SQL, HTML
Core Competencies	DSA, Machine Learning, Deep Learning, NLP, Computer Vision, Data Analytics
Cloud	AWS, Azure, Salesforce Cloud
Tools	Git, GitHub, Microsoft Office, Power BI
Libraries	Numpy, Pandas, Scikit-Learn, Tensorflow, Seaborn, Matplotlib

WORK EXPERIENCE

Tata Consultancy Services - Analyst Intern - Developed dashboards using SQL and Python for business insights. - Designed ETL pipelines and performed data cleaning for accuracy. - Applied data warehousing for sales forecasting and behavior analysis.	Feb 2025 - Apr 2025
PwC India, CTDP Trainee – Apprenticeship - Completed the CTDP Program receiving 130 badges and 72k points. - Specialized in Salesforce Cloud: Object Management, App Builder, Automation. - Designed reports, dashboards, and automated workflows using Salesforce Flows.	May 2024 - Jun 2024
National University of Singapore - Academic Intern - Created an NLP-based Law Verdict Generator with 96% accuracy. - Deployed models on AWS SageMaker focusing on scalability and security.	Dec 2023 - Jan 2024
NTPC Limited - Vocational Trainee - Gained hands-on experience in MySQL and MS SQL Server. - Learned Power BI for operational analytics and reporting. - Supported data-driven decision-making for performance and process optimization.	Aug 2023 - Dec 2023

PROJECTS

Dog-Vision - <i>Machine Learning, Deep Learning, Computer Vision, TensorFlow.</i> Developed a CNN image classification model for dog breeds (99.89% accuracy). Optimized through data augmentation and transfer learning.
Law Verdict Generator - <i>Machine Learning, NLP, AWS Cloud.</i> Fine-tuned transformer models for legal verdicts (96% accuracy). Real-time solution deployed on AWS.
Heart Disease Detection - <i>Data Science, Machine Learning.</i> Created a predictive model on clinical data (95% accuracy). Applied feature engineering and cross-validation.

EDUCATION

2021 - 2025	B.Tech (Computer Science and Engineering) at VIT, Vellore	(CGPA: 8.72/10)
2019 - 2021	Higher Secondary Certificate at DPS RK Puram, New Delhi	(Percentage: 93/100)

CERTIFICATIONS

• Big Data Analytics using Deep Learning	<i>National University of Singapore</i>
• AWS Certified Cloud Practitioner	<i>Amazon</i>
• Microsoft Azure Administrator Associate	<i>Microsoft</i>
• AI, Machine Learning, and Data Science Bootcamp	<i>Udemy</i>

COMMUNITY INVOLVEMENT

- **Core member, German Literary Association** - Led event coordination, boosting participation.
- **Volunteer, HelpAge India** - Organized fundraiser mobilizing 400+ donors for flood relief.
