ABOUT ME

Passionate Public Health professional pursuing a Master's in Public Health from Azim Premji University, with a strong foundation in nutrition science. I hold a Bachelor's in Applied Nutrition and Public Health and a DNHE diploma from IGNOU.

I have hands-on experience in clinical nutrition, community health programs, and research, along with part-time health content writing. Skilled in diet planning, community engagement, and public health program design, I strive to deliver evidence-based solutions that empower communities and improve health outcomes.

EDUCATION

2025 - Present

APU Bhopal

Masters in Public Health

Focused on public health research, epidemiology, community health programs, and evidence-based interventions to improve population health outcomes.

2024 - 2025

IGNOU

Diploma in Nutrition and Health Education (DNHE)

Gained foundational knowledge in nutrition, diet planning, health education, and preventive healthcare strategies for individuals and communities.

2021 - 2024

St. Ann's College for Women

Bachelor's Degree in Applied Nutrition and Public Health

Studied nutrition science, public health principles, and program management, with hands-on experience in community health and clinical nutrition.

EXPERIENCE

JAN 2022 - DEC 2024

TheQnA.Org

Content Writer (Part Time)

Researched, wrote, and published SEO-friendly articles on health, nutrition, travel, and lifestyle topics. Focused on delivering engaging, well-structured, and informative content to enhance reader experience and improve online visibility.

AUG 2022 - NOV 2024

Sahayata Foundation

Public Health Dietitian

Completed an intensive, practice-oriented program covering key areas of public health, including nutrition interventions, community health practices, program implementation, and monitoring & evaluation.

OCT 2023

Learn To Upgrade

15-Day Clinical Nutrition Internship

Comprehensive hands-on training in clinical nutrition assessment, therapeutic diet planning, and patient counseling techniques through digital learning methodologies.
