Table of Contents:

1. Introduction
2. Profile of the Organisation
3. Internship Objectives
4. Description of Work Done
5. Learning and Key Takeaways
6. Challenges faced during the first week and how I overcame them

ABOUT THE ORGANISATION:

Child Rights and You (CRY) is a leading Indian non-governmental organization founded in 1979 by Rippan Kapur with the vision of ensuring a happy, healthy, and secure childhood for every child. Headquartered in Mumbai, CRY works across 20 states in India, partnering with grassroots organizations to uphold and protect children's rights to survival, development, protection, and participation. **Its core focus areas include education, health and nutrition, protection from abuse and exploitation, and enabling children to voice their opinions.** Over the decades, CRY has positively impacted over 4.7 million children through its rights-based approach, community-driven programs, and strong advocacy efforts. The organization is currently led by CEO Puja Marwaha and continues to be a catalyst for sustainable change in the lives of underprivileged children.

VISION OF CRY:

CRY (Child Rights and You) envisions a world where every child's rights are protected and honored, allowing them to live with dignity, in a society that offers equal opportunities for growth and development.

MISSION OF CRY:

CRY's mission is to enable individuals and communities to take responsibility for underprivileged children, mobilize collective potential, and inspire sustainable action that ensures long-term change in the lives of children. It addresses the root causes of child rights violations by collaborating with grassroots partners and influencing policy.

INTRODUCTION:

As a management student with a deep commitment to social equity, sustainable development, and strategic impact, **I resonate strongly with CRY's mission** and its **community-first approach**. I believe that management is not only a tool for business success but also a powerful medium for driving meaningful social change and CRY exemplifies this philosophy through its structured, impact-oriented work in the child rights space.

In **Week 1 of my internship**, I had the opportunity to work with **Nav Srishti**, located in **Neb Sarai, Delhi**, which receives support and funding from CRY. This grassroots organization works actively on education, healthcare, and awareness for underprivileged children and women. My work involved **on-field community service that includes assisting in educational and community engagement sessions, interacting with children and their families, and understanding their ground realities along with organising and assisting various camps for them**. This experience is helping me connect theory with practice i.e applying people management, planning, and communication skills in a real-world setting.

Our Vision & Objective

We are a Non-Profit, Non-Governmental Organization (NGO), registered under Societies Registration Act, 1860 on August 03, 1994 at New Delhi and under Foreign Contribution Regulation Act 1976 and Income Tax (IT) Exemption Act 1961. We believe that working on grassroots level alone will not help much to solve the problems in long-term manner. There is a need to work for changes in policies and programs too. Keeping this in mind, Nav Srishti is working at both levels. On one hand we are working at local level to solve local problems with active involvement of women and local community along with youth, adolescent and children. We also strive to collaborate with the State and National level civil society organization working on similar objectives.

Vision

To Enhance the capacities and skills of underprivileged and marginalized communities, especially women and children so that they could become self-dependent and live a dignified and respectful life.

Mission

Through holistic programs addressing health, education, economic empowerment, and social inclusion, we aim to equip them with the necessary skills, knowledge, and resources to become self-sufficient, empowered, and respected members of society.

DAY 1 - 14 MAY 2025 (Orientation)

Organization Orientation:

On the first day of the internship, I visited the Delhi office of CRY (Child Rights and You), where orientation session was conducted for interns.

Profile Explanation:

During the orientation, I was introduced to my assigned role — community fieldwork in association with Nav Srishti, an NGO based in Neb Sarai, Delhi, which is supported and funded by CRY.

Assigned NGO – Nav Srishti

Nav Srishti works primarily in the areas of health, education, and awareness generation for underprivileged women and children in urban slums.

Nature of Work:

- Engaged directly in on-ground community programs facilitated by Nav Srishti.
- Assisted in educational activities for children, including informal teaching and organizing interactive learning sessions for age groups 6-15 years.
- Participated in community mobilization efforts aimed at improving attendance in health checkups and school enrollment.

DAY 2 - 15 MAY 2025 (Summer Camp Programme)

Supported Ongoing Educational Programme:

- Actively assisted Nav Srishti in their initiative to provide meaningful academic and extracurricular engagement to underprivileged children during their summer break.
- Helped in conducting classes for children aged 6 to 15 years who were on vacation from government schools.

Subject-wise Teaching (Grades Divided Accordingly):

English: Taught grammar and vocabulary using games like word puzzles and vocabulary bingo.

Mathematics: Used **visual aids** and **counting objects** to teach basic arithmetic to younger kids.

Science: Demonstrated basic science concepts using **hands-on experiments** (like floating and sinking, mixing colors etc.).

Student-Centric Approach:

- Adapted teaching techniques as per the age group and grasping ability of the children.
- Ensured inclusive participation through **teamwork activities**, **peer learning**, and **positive reinforcement**.

Extracurricular Enrichment:

- **Organized debates and group discussions** to build confidence, critical thinking, and public speaking skills in children of age group 11-15 years
- Facilitated **creative writing and storytelling** activities to improve written and spoken English of smaller kids.

DAY 3 - 16 MAY 2025 (Free Health Camp)

Free Medical Camp was organized by Nav Srishti in collaboration with the All India Women Conference (AIWC) and Rajiv Gandhi Cancer Institute & Research Centre (RGCIRC).

Pre-Camp Awareness and Community Outreach:

- Participated in a door-to-door **awareness drive** at **Neb Sarai** to inform residents about the **free medical camp**.
- Highlighted the **core objective of the camp** – to spread **awareness about early detection and prevention of cancer** specifically Oral cancer among men and breast, cervical cancer among women.

On-Ground Responsibilities – Registration & Data Handling:

- Handled the registration desk during the medical camp, ensuring smooth entry and systematic recording of patient data-
 - Collected and organized name, age, phone number, and Aadhaar of each participant.
 - Created structured data logs for record-keeping and follow-ups in coordination with the medical team.
- Assisted in crowd management and directed attendees to appropriate testing areas.

Follow-up Coordination – Previous Patient Tracking:

- Collaborated with RGCIRC to track individuals who attended the August 2024 medical camp held by Nav Srishti and had shown early symptoms or health issues.
- Contacted those individuals from existing records to urge them for repeat testing and review of their current health status.
- Ensured these high-risk individuals received priority diagnosis and proper medical attention during the camp.

DAY 4 - 19 MAY 2025 (Social Media Handling and Summer Camp Assistance)

- Handled social media content creation for Nav Srishti's platforms to highlight the success of the Free Medical Camp. Drafted and designed a "Thank You" note post for the official page, acknowledging-
 - ❖ All India Women Conference (AIWC) for their organizational support.
 - ❖ Rajiv Gandhi Cancer Institute and Research Centre (RGCIRC) for providing medical staff and cancer screening services.
- Continued Summer Camp Teaching Activities - Promoted a **safe and inclusive learning environment**, ensuring that each child was involved and motivated to participate and facilitated a **creative writing session**, encouraging children to write short stories or poems and share them aloud.
- 1 hour session with students of aged 11-15 years teaching them basics of computer at the desktops available with the NGO.

LEARNING AND KEY TAKEAWAYS: First Week of NGO Internship (CRY x Nav Srishti)

1. Understanding Grassroots Project Implementation

- Gained first-hand experience of how community programs are designed and executed at the ground level.

2. People & Stakeholder Management

- Interacted with diverse stakeholders including children, parents, healthcare staff, community leaders, and NGO personnel.

3. Event Planning & Operational Coordination

- Participated in the planning and execution of a health camp, involving tasks like outreach, registration, data management, and logistics.

4. Data Handling & Record-Keeping

- Gained experience in managing and organizing sensitive personal data (e.g., name, Aadhaar, health history) during the medical camp.
- Realized the significance of accurate documentation for follow-ups, reporting, and program evaluation.

5. Innovative Pedagogy & Informal Education

- Developed creative ways to teach academic subjects (English, Math, Science) to underprivileged children with varied learning abilities.
- Learned the importance of interactive and student-centric learning over traditional rote methods.

6. Leadership & Team Collaboration

- Took initiative in organizing debates, group discussions, and awareness activities, boosting confidence and leadership capability.

CHALLENGES AND RESPONSE MECHANISMS:

1. Language and Communication Barriers

- **Challenge:** Many community members, especially women and children, spoke in local dialects
- **Coping Strategy :** Used basic Hindi and non-verbal communication (gestures, visual aids).

2. Engaging Children of Diverse Age Groups & Learning Levels

- **Challenge:** Managing and teaching children aged 6–15 years with varying academic levels and attention spans.
- **Coping Strategy:** Divided children into smaller, age-appropriate groups and adopted interactive and playful teaching methods like games, storytelling, and visual learning tools.

3. Limited Resources and Infrastructure

- **Challenge:** Teaching and conducting activities with limited supplies (books, stationery, space).
- **Coping Strategy:** Focused on **experiential** and **discussion-based learning** instead of material-heavy activities.

4. Managing Crowd and Data During Medical Camp

- **Challenge:** High footfall and simultaneous data entry during the medical camp created moments of chaos and confusion.
- **Coping Strategy:** Prioritized tasks by dividing roles i.e one person for data collection and another for crowd coordination also stayed calm under pressure, ensuring systematic registration, and cross-verification of records with the medical team.

While the first week came with its fair share of challenges, each obstacle turned into a valuable learning opportunity. The ability to adapt, communicate, collaborate, and lead under real-world constraints helped strengthen both my personal growth and managerial competencies.

Declaration

I hereby declare that the information furnished above is accurate to the best of my knowledge and reflects my true internship experience for the given week.

Signature of Student:

A handwritten signature in blue ink that reads "Himanshi" with a horizontal line underneath the name.
