

Weekly Internship Report

Submitted by : Tzudimenla

Duration : 1 month

Internship organisation : Child Rights and You (CRY)

Week 1-

My main responsibility was to interview the applicants from the list provided .

Work done:

- 1) Reviewed the list of applicants.
- 2) Prepared questions to be asked during the interview in consultation with my supervisor/team.
- 3) Conducted interviews with 126 candidates through call .
- 4) Maintained records and notes for each interview, highlighting key strengths and other details .

Week 2-

Work done :

Conducted interviews: I completed the interview process by calling the remaining students. These interviews were essential for knowing the applicants details and gathering relevant information.

Attended calls at the office from the intern students for their final call interview: I handled several calls from the intern students at the office to confirm their participation . These calls were documented and followed up as needed , contributing to the smooth coordination of the process .

Prepared a module based on Gender : Worked on developing a gender - focused module for 12-18 age group .

Week 3-

Work done:

1. I received and responded to calls from students who were undergoing their internship interviews .
2. Wrote reviews based on each interview in terms of skills ,professionalism and alignment with internship requirements.
3. Visited PACE centre at Wazirpur village and conducted a field visit as a part of outreach. The primary focus was to spread awareness about Aadhar and assist individuals who lacked the necessary identity documents. We engaged with community members and explained the importance of Aadhar registration on how to obtain required documents .

Week 4-

Work done :

- 1.PACE (onground)
Aadhar camp for children under 18 years -
Visited PACE centre in Wazirpur Village as a part of on ground and supported the team in organising a camp on aadhar card enrollment for the age under 18.

During this camp we helped the parents and children in enrolling their names and guided them for the documentation process .

Data entry -

We did the task of digitizing a large handwritten register by transferring its contents into a structured data sheet to allow easier access , and long term preservation of the information. The process involved careful verification and systematic entry to ensure accuracy and consistency.

Interaction and awareness session with students-

Conducted an interactive session with students focused on the areas of personal safety , communication and their aspirations.

We aimed to raise awareness about the importance of their safety both physically and emotionally. We also talked about communication and confidence building to help them express themselves confidently and effectively.

2. Received calls from interns for their on call interview-

I received calls from the new interns for their on call interview and maintained records and details for each interview highlighting key strengths and other details .

3.Fundraising activity list -

Created a list of potential fundraising activities. The goal was to identify low-cost , easy to organise that can effectively engage with the community and raise funds .
