ACKNOWLEDGEMENT

I would like to express my heartfelt gratitude to CRY FOUNDATION-Child Rights and You, my mentor [Mrs. Smriti Rastogi], and the entire team for giving me the opportunity to be a part of this meaningful journey. Their guidance and support were invaluable throughout my internship.

INTRODUCTION

CRY Foundation – Child Rights and You is one of India's most respected NGOs, working since 1979 to support the rights of underprivileged children. Its mission is to ensure that every child gets access to basic needs like education, healthcare, protection from abuse, and a safe, nurturing environment to grow. Rather than running its own schools or hospitals, CRY works hand-in-hand with local organizations and communities across the country to bring lasting change. The foundation also plays a key role in influencing policies, spreading awareness, and involving volunteers and donors in building a better, more just world for children. During my internship, I was involved in a variety of tasks that spanned creative, operational, and communication roles. From designing digital content and coordinating with influencers to handling technical tasks like editing, emailing, and maintaining data records, I took on multiple responsibilities that supported both campaign execution and backend operations.

OBJECTIVES

- To understand the functioning of a non-governmental organization.
- To contribute to projects aligned with the NGO's mission.
- To enhance professional skills through real-world exposure.

ACTIVITIES PERFORMED

World Music Day Campaign Project

Ideation & Design

- Brainstormed concepts and designed engaging posters using Canva to promote the event and spread awareness about CRY's mission.
- Created event pitches, curated musical games for different age groups, and selected theme songs to enhance audience engagement.

Influencer & Artist Coordination

- Contacted and onboarded local singers, social media influencers.
- Created a formal WhatsApp group for event invitees and influencers for smoother communication.

Venue & Market Research

- Conducted thorough research to finalize cafes, parks, and public venues based on CRY's event criteria. Negotiated with venue owners and service providers including Bisleri water suppliers, bakeries for the "Bake for CRY" campaign, and wooden furniture vendors.
- Execution & Promotion:
 - Led the event as a volunteer-in-charge, managed the crowd and performed anchoring duties, delivered donation pitches, and concluded with a heartfelt thank you speech.
 - Post-event, actively promoted the CRY x Benaam Band collaboration on Instagram and designed digital posts to increase online visibility and raise funds.

Interview & Intern Management

- Assigned as Peer Mentor, I led a team of 30+ interns.
- Took 100+ structured and situational interviews, guided the new joiners about various departments, and helped them choose their roles.
- Managed intern queries via WhatsApp, tracked and updated task submissions on Google Drive, and sent regular reminders for pending work.

Documentation & Reporting

- Maintained meticulous records using Excel, including:
 - Intern details and task status
 - Interview data organized in structured formats
- Supplier and partner research (e.g., bakeries, influencers, furniture)
- Also contributed to technical operations like email drafting, PDF creation, image editing, and converting physical documents to digital formats for broader outreach.

KEY LEARNINGS

- Event Planning & Execution
- Communication & Collaboration:
- Interviewing & Assessment:
- Market & Social Media Research:
- Design & Digital Tools:
