College Roll no.= 23-BA-HINA-13

CU Roll no.= 232031-11-0130

Registration no.= 031-1211-0096-23

Internship period: 12<sup>th</sup> May – 31<sup>st</sup> May

Internship Duration: 15days

Total Hrs contribution: 60

Name of the organization = CRY

Address of the organization =152, New No. 8, 2<sup>nd</sup> St, Gitanjali Park,  
Kalikapur, Haltu, Kolkata, West Bengal 700099

- **ABOUT CRY :**

OUR CRY's vision is a happy, healthy, and creative child whose rights are protected and respected in a society built on respect for dignity, justice, and equity for all. Their mission is to empower people to take responsibility for underprivileged children and to motivate them to act collectively and individually to ensure children can reach their full potential.

- **Vision:**

We envision a world where every child's rights are fully protected, respected, and upheld — where each child, regardless of their background, has the freedom and opportunity to dream, grow, and thrive in a safe and nurturing environment.

Our ideal society is one where the principles of dignity, justice, equality, and equity are the foundation of every action and policy — a society where no child is discriminated against on the basis of caste, religion, gender, or socio-economic status.

We believe in building a world where every child is happy, healthy, and creative — a world that nurtures their potential, honors their voices, and safeguards their well-being.

Our vision is to create a truly child-friendly society — a just and inclusive space where children are safe from exploitation and abuse, where they have access to quality education and healthcare, and where their dreams are supported by a strong, compassionate community.

In this ideal society, every child is empowered to grow into a responsible, confident, and kind individual — and every adult takes shared responsibility to ensure that no child is left behind.

- **Our Mission:**

To enable people to take responsibility for the situation of underprivileged Indian children.

To mobilize people's potential for action and change, fostering collective action to secure children's rights.

To empower children to realize their full potential by ensuring access to education, healthcare, safety, and participation.

To work towards a society where children's voices are heard and their rights are respected.

In essence, CRY's mission is to create a society where children are prioritized and can reach their full potential, with a focus on empowering individuals and collectives to take action and make a difference in the lives of children.

TAKING RESPONSIBILITY :

To enable people to take responsibility for the situation of the deprived Indian child and so motivate them to seek resolution through individual and collective action thereby enabling children to realise their full potential.

MOBILIZING POTENTIAL:

To make people discover their potential for action and change.

COLLECTIVE ACTION:

To enable peoples collectives and movements encompassing diverse segments, to pledge their particular strengths, working in

partnership to secure, protect and honour the rights of India's children.

- **IMPACT**

ORGANIZATION IMPACTCRY (Child Rights and You) is a renowned Indian NGO focused on child rights, primarily working to ensure children's access to education, health, and protection. They have a significant impact by promoting education, combating child labour and marriage, and addressing malnutrition. CRY's impact extends to impacting over 3 million children in India through various programs.

Key areas of CRY's impact:

Education:

CRY works to ensure children, especially girls, are enrolled and retain in schools. They have a 13% better enrollment and retention rate for children aged 15-18 compared to the all-India average, according to UDISE+ 2021-22 report.

Child Protection:

CRY actively protects children from child labour and marriage. They claim to protect 99% of adolescent girls from child marriage and 88% of children from child labour in their project areas.

HEALTH AND NUTRITION:

CRY addresses malnutrition through programs like Community-Based Management of Malnutrition (CBMM), including initiatives like kitchen gardens to ensure access to nutritious food. They protect 92% of children under 5 years old in their project areas from undernourishment.

## Community Engagement:

CRY works with local communities, parents, teachers, and government officials to create a supportive environment for children. They use various methods, including children's collectives, to engage children in advocating for their rights.

## IMPACT ON 2024-25:

In 2024-25, CRY impacted 22,57,372 children, with 2,29,045 children enrolled in school and 32,472 children protected from child labour, marriage, and trafficking.

With a central mission of safeguarding children's rights, CRY made a positive difference in the lives of 21.14.322 children in 2023-24

Here's what we accomplished, thanks to your support

54% children in CRY project areas, between the ages of 6-18 years in school.

88% children in CRY project areas, under the age of 5 years protected from undernourishment.

90% of adolescent girls in CRY project areas, between 11-18 years protected from child marriages.

67% children in CRY project areas, between the ages of 6-18 years protected from child labour.

- **OUR MULTIPLIER MODEL:**

At CRY, we're dedicated to ensuring that every rupee we invest makes a significant impact and benefits the communities we support. This year, we're proud to share an inspiring example from a

CRY project where the measurable benefit to the community was 5 times the original investment

CRY (Child Rights and You) utilizes a "multiplier model" by empowering local NGOs and community stakeholders to implement projects and advocate for child rights, ultimately achieving a larger impact on children's lives. This model focuses on creating sustainable change at various levels, from individual families to communities and even government policies.

Elaboration:

Empowering Local NGOs:

CRY provides financial, managerial, and informational support to grassroots organizations, enabling them to effectively implement child-centric programs.

Community Mobilization:

CRY works with community stakeholders like teachers, Anganwadi workers, and village child protection committees to create a supportive environment for children.

Systemic Change:CRY aims to influence public policy at the local district, and state levels to ensure that children's rights are prioritized and that their needs are addressed effectively.

Focus on Education, Health, and Protection:

CRY works in various areas, including education, health and nutrition, safety and protection, and child participation.

Long-term Sustainability:

By strengthening systems and building capacity at the grassroots level, CRY aims to create lasting changes rather than providing temporary relief.

With a program designed to target 15,480 children in a CRY project the budget is utilized to implement awareness programs, schemes and initiatives that benefit both children and their families. As a result, many more families become aware of and are positively impacted by these programs in this case 49,424 children were reached. This approach demonstrates how the impact is extended beyond the initial beneficiaries and significantly increases the number of lives transformed and the overall value of the investment.

- **OUR APPROACH:**

With your support, we address children's critical needs by working with parents, teachers, Anganwadi workers, communities, district and state level governments as well as the children themselves.

- We focus on changing behaviours and practices at the ground level and influencing public policy for advocacy at a systemic level thereby creating an ecosystem where children are made the nation's priority.

### Achieving Systemic Change for India's Children

- Family: Changing their behaviours, attitudes and practices towards children.
- Children: Addressing their immediate and critical needs by focusing on key programmatic areas that ensure children

become agents of change and have the ability to hold dialogue on the things that matter to them.

- Government: Partnering with district, state and national level governments to strengthen policy and advocacy systems for children.
- Public: Sensitizing society to create an ecosystem where children are a priority.
- Community: Mobilizing community stakeholders like teachers, Anganwadi workers and village child protection committees to take action for children.
- **THEMATIC AREA'S:**

CRY focuses on four key areas:

**Education** – As one of the most trusted NGOs working for education in India, CRY education Programs align with the guidelines set forth by the Right to Education Act (2009) and the National Education Policy 2020.

Here are the key focus areas of our work:

#### Enrolment of Children in School:

CRY actively promotes the enrolment of children in schools especially those from Marginalized communities. We collaborate with local communities and stakeholders to ensure That every child has the opportunity to access education.

#### Ensuring transition through classes:

Many children drop out of school at critical transition points, such as the transition from primary to middle school. By identifying and

addressing factors that lead to dropouts during these key transitions, CRY ensures a smooth educational journey for children.

#### Mass Awareness Drives for Communities and Re-enrolment of Dropouts :

CRY conducts mass awareness campaigns to emphasize the importance of education, identify and re-enrol children who have dropped out of school for various reasons, such as financial constraints or lack of awareness.

#### Ensuring Access to Entitlements :

CRY works to ensure that children have access to their entitled benefits and resources provided by the government. This includes advocating for and facilitating the implementation of policies and programs that benefit children's education.

#### Support Classes for First-Generation Learners :

These classes offer additional guidance and support to help first-generation learners overcome learning challenges and build a strong foundation for their education.

- **Health & Nutrition** - As a top child health NGO in India CRY provide children health and nutrition they need for a healthier future.

Here are 3 key focus areas of our child health initiatives:

#### Prenatal & Postnatal Care:

The nutrition received in the first 1000 days of children's lives is crucial as it helps in their Physical, mental and cognitive development. Therefore we focus on timely care for expectant And

lactating mothers. We connect expecting mothers and their babies to the government Healthcare system to ensure quality prenatal care, safe deliveries, and postnatal check-ups for Breastfeeding.

#### Regular Growth Monitoring:

Monitoring children's growth until age 6 ensures healthier childhoods. We promote infant and young child feeding practices which addresses gender discrimination, and complete immunization Schedules through the government healthcare system.

#### Community-based Nutrition Management:

We conduct awareness drives for communities on the importance of proper nutrition, quality Healthcare, and timely immunization to bring a lasting generational change in behaviours and Attitudes towards children's health. Our kitchen garden initiative aims to reduce malnutrition In children by enabling communities to grow vegetables and fruits rich in micronutrients.

- **Safety & Protection** – Being a child rights NGO, CRY is concerned with the safety and Protection of children. Our mission is to create a secure and protective environment for all Children, ensuring their well-being and safeguarding their rights. We firmly believe that no Child should be subjected to neglect, violence, or exploitation and that marginalised children Are particularly vulnerable to such risks. Thus to protect children CRY undertakes various

#### Programs that focus on:

**Child Labour:** According to the International Labour Organization (ILO), child labour is Generally defined as the practice of children prematurely leading adult lives, working long Hours for low wages under hazardous conditions, often separated from their families and Deprived of meaningful education opportunities. It deprives children of their childhood and Robs them of their dignity. The endeavour is to work with the community to eliminate the Practice at the village level while simultaneously ensuring that children go to school instead of work.

**Child Marriage:** Child marriage is one of the most prevalent forms of exploitation and sexual Abuse – particularly with girls under the age of 18. The practice is widespread in India across all the states in varying degrees but more acutely in Rajasthan, Madhya Pradesh, Bihar, Uttar Pradesh, Jharkhand, Haryana, Karnataka, Andhra Pradesh and Tamil Nadu. The endeavour is to work with the community to eliminate the practice at the village level while simultaneously ensuring that girls go to school instead of becoming child brides and shouldering early motherhood.

**Child Trafficking:** A form of human trafficking, child trafficking is understood as the kidnapping of a child for the purpose of slavery forced labour and exploitation. In India, children are trafficked for different purposes including labour, commercial sexual exploitation, marriage, adoption and even organ trading. Setting up child protection committees at the village level for prevention is a key area of intervention.

- **Child Participation** – Children have a right to be heard and their opinions considered by the adults around them. Every child should have the agency to speak out and/or act on the issues that affect them. It's not only important for their mental and emotional development but also fosters a high degree of self esteem and self belief. CRY believes that all children have the potential to be agents of change and the ability to hold dialogue on the things that matter to them. CRY's child participation programs focus on building children's collectives as peer support groups and engaging with the children to build their awareness on child rights issues.

## PROJECT OVERVIEW

### ASSIGNMENT NO 1 :

**1) Name of the assignment:-** case story documentation of Health and Nutrition in East Champaran

- **About assignment :**

My first assignment as an intern at CRY Foundation entailed spending 50 hours working offline on case story documentation of Project health and nutrition awareness initiative its to promote sustainable health awareness and well-being among underprivileged communities. For the implementation of this Child Rights and You (CRY) Foundation.

- **Objectives:** Case story Documentation is to part of Case story documentation of Health and nutrition in East Champaran to bring out the story of the marginalized people and study the impact of CRY's initiative in this area.
- **Role and Responsibility:** As a intern of CRY, my responsibility in regard to this assignment was to read the case stories provided by the coordinators and document the given information in the CRY Success Story Format for 2025-26 and also write articles on the provided case stories. I ensured all the submissions were completed by the given deadline.
- **Target group:** - Target group regarding Health and Nutrition East Champaran, Bihar, there is still a lack of awareness about Health and nutrition, safe sanitation. With the help of CRY-AM through CHARDS of this program was to raise awareness and provide inspiration them.

- **Any training session attendance:-**I attended a meeting on How to Capture a Case Story which helped me to understand the process of case story collection and documentation. A detailed step wise explanation was provided.
- **Skill used and tools used:** -For the completion of this assignment I used my writing, editing and communication skills. The tools I used in this assignment were MS Word, MS Excel

1)Microsoft word – I used it for writing case story documentation and writing articles on the same.

2) Phone camera – I used it to click photos provided in this report.

These tools helped me to work more efficiently.

- **Hours contributed:** - While working as an intern for CRY, I contributed 50 hours working offline on the assignment.
- **Learning:-** I gained a deeper understanding of the role of empathetic storytelling, narrative structuring and maintaining

brevity in case stories and articles. This opportunity enabled me to learn the success stories of various children coming from financially constrained household but they still have strong determination, hope and commitment to achieve their dreams. "Children and people from underprivileged backgrounds who were battling illnesses were given the gift of health and a chance at a better life, thanks to the support of CRY " learned about CRY's role in turning these dreams into reality and its efforts to empower children by helping them overcome the limitations they face.

## **ASSIGNMENT NO=2**

### **NAME OF THE ASSIGNMENT: CRY'S CHILD SAFE GUARDING POLICY**

- **ABOUT ASSIGNMENT:** As part of my CRY internship, I participated in a group activity on the Child Safeguarding Policy, enhancing our understanding through research, teamwork, and communication during a collaborative presentation.
- **OBJECTIVE:** "This assignment was given to us to make the interns aware of CRY's Child Safeguarding Policy, its implementation, and the actions that will be taken in case of any violations." The assignment aimed to familiarize us with CRY's Child Safeguarding Policy, key legal terms, responsibilities, and conduct codes. It helped us understand implementation by CRY and partners, reporting systems, and accountability, while building skills to analyse and suggest policy improvements.
- **Role and Responsibility:** -

As an intern of CRY, my responsibility for the second assignment was to read up materials provided on CRY's Child safeguarding policy, interact with my designated group members, attending group meetings, division and completion of the task assigned to me and help with the overall research, coordination and presentation of the assignment.

- **Skill used and tools used:-**For the completion of this assignment I used my writing, editing and communication

skills. The tools I used in this assignment were MS Word, MS Excel,

1) Microsoft word – for making ppt on child safeguard policy

These tools helped me to work more efficiently.

- **Hours contributed** : While interning at CRY, I contributed 10 hours working offline on this assignment.
- **TARGET GROUP:** The interns of CRY (Child Rights and You) were the target group for the second assignment.
- **LEARNING** : The assignment on Child safeguarding policy gave me a thorough understanding of CRY's child safeguarding policy, child rights and protection. I learned about roles and responsibilities of stakeholders — staff, volunteers, and partners in creating and maintaining a safe environment for children. It provided insights into the procedure followed for reporting and responding to safeguarding concerns, its violation.
- **Skill Acquired:** Intern at CRY Helped me enhance my communication, editing, writing and time management skills. The opportunity to work in groups with my fellow interns improved my ability to do team work, thus my coordination ability improved.

1) Content Writing and Editing: I documented clear, engaging, and sensitive narratives for the case stories, ensuring the tone was respectful and aligned with CRY's Success Story Format 2025-26. This assignment helped me acquire professional writing skills.

2) Communication Skills: I communicated my concerns regarding missing information of the beneficiary children with the project coordinators. This really helped me in developing better communication skills.

3) Analytical Thinking: I interpreted case story interviews to identify key themes, challenges, and turning points to include in both the documentation and the articles. This experience enhanced my analytical thinking skill.

4) Research Skills: I reviewed CRY's Child Safeguarding Policy and relevant child rights frameworks to accurately present policy elements and their significance.

5) Visual and Verbal Communication: I designed a visually engaging PowerPoint with my designated group that effectively communicated policy information using a balance of text, visuals, and bullet points.

6) Coordination and Cooperation skills: The opportunity to work in groups with my fellow volunteers improved my ability to do team work, thus my coordination and cooperative ability improved.

- **Challenges**: I faced some difficulty in creating and submitting MS word documents and excel sheets as I do not have access to a laptop. I am grateful to my fellow interns for helping their support and coordination. Apart from this, I did not face any other challenges during the assignment.

The assignment on health and nutrition was carried out in East Champaran, I did not have the opportunity to interact with the children in person. My engagement was limited to virtual

communication through the project coordinators. I believe that direct, face-to-face interaction would have provided a deeper understanding of the children's experiences and perspectives.

- **Summary:** To conclude, my experience of working offline as an intern, for 60 hours with CRY was deeply fulfilling. I had my writing and communication skills while contributing to the organization's mission. Through this assignment, I gained valuable insights into child rights, CRY's impactful efforts in transforming the lives of underprivileged children, and several inspiring success stories that highlight the difference the organization is making.

The assignment on CRY's child safeguarding policy enhanced my understanding of why it is needed, how crucial safeguarding measures are to protect child, and importance of responsibility, accountability, and reporting in creating a child-friendly environment.

The second assignment as an intern at CRY Foundation entailed spending 60 hours working offline on case story documentation of Project health and nutrition awareness initiative its promote sustainable health awareness and well-being among underprivileged communities. For the implementation of this Child Rights and You (CRY) Foundation.
