

PROGRAMME MONTHLY UPDATE

Region/State: Andhra Pradesh and Telangana

Reporting Month: May, 2025

1.THEME-WISE PROGRAMME HIGHLIGHTS, CONSOLIDATED AT REGIONAL LEVEL:

A. Education:

Achievement 1: 21 children (16 Pragathi and 5 SRAMA) aged 3+ were newly enrolled into pre-schools (Anganwadi Centres) across project locations.

a) Household Level:

- Tracking of all families that have pre-school age children.
- Household level sensitization of parents on importance of Pre-School education.
- Facilitating admission of 3+ children into pre-school anganwadi.

b) Community Level:

- Sensitization meetings conducted with parents, adolescent groups, and community members.
- Sensitization of CBO members from on the advantages of Govt. Anganwadi Centres.
- CBO-led community meetings were conducted to motivate families to enrol eligible 3+ children into Anganwadi centres.

c) Government System Level:

- Regular engagement and coordination with Anganwadi teachers and ICDS functionaries to ensure enrolment of children.
- Joint house visits with ICDS functionaries to motivate parents of pre-school age children to join their children in anganwadi centres.
- Follow-up and monitoring of ECCE quality in collaboration with ICDS stakeholders.

❖ **Achievement 2:** The AP/TGS projects (Pragathi-77, SRAMA-12, KDDI-7, PORD-43, EFFORT(Khammam)-20) conducted 159 CBO/parents/MM meetings during the month of May. (109 CBO Meetings, MM-1, Parents- 50)

a) Household Level:

- Counselling with parents on education continuity and girl child protection.
- One-on-one sensitization with families on the risks of child labour and early marriage.
- Follow-up with parents of dropout children to encourage school re-enrolment.

b) Community Level:

- Sensitization meetings with parents, CBOs, and SMCs on children's right to education and protection.
- CBOs mobilized to identify and support dropout re-enrolment and girl child education.

C) Government System Level:

- Engagement with local leaders, PRIs, and ICDS/School functionaries to ensure convergence in school enrolment drives.
- Meetings facilitated between community stakeholders and education officials to escalate infrastructure and access issues.
- Functional collaboration with Anganwadi teachers, ASHAs, and other staff for effective outreach and follow-up.

❖ **Additional Achievements:** A community-level meeting with the Telangana Education Commission, chaired by Sri Akunuri Murali, to ensure the District Education Department assumes full responsibility (rent, appointment of government teachers, mid-day meals, textbooks, and uniforms) for MPPS Gabbilalpet, alongside sanctioning 5 acres of land for its permanent establishment. Consultants submitted a requisition letter to the Jawaharnagar Municipal Commissioner and the WCD Director to sanction mobile Anganwadi centres for all uncovered areas in Jawaharnagar, including Giri Prasad Nagar and Gabbilalpet, by establishing 4 new mobile Anganwadi centres around Gabbilalpet.

B. Health & Nutrition:

Achievement 1: 9 new pregnant women were facilitated with their registration in ICDS centre for nutrition and health services in EFFORT, Bhadrachalam project. It paves the ways for the pregnant women to access vital services and support that includes antenatal care, nutritional supplements, and health education, contributing to a healthier pregnancy and improved maternal and child health outcomes.

a) Household Level:

- Household level tracking of all the women.
- Sensitization of pregnant women and their families on importance of getting registered with ICDS centre.
- Assisting pregnant women with their registration in ICDS centres.

b) Community Level:

- Sensitization meetings with community members on importance of antenatal care, importance of nutrition and health services.
- Sensitization of families and community on health and nutritional services that are entitled for pregnant women.

- Providing information of stakeholders and service providers in case of emergency or need of medical assistance.

c) Government System Level:

- Engagement with ICDS and health functionaries on regular basis to promote community support and participation in health and nutritional services.
- Joint visits to pregnant women and their families to sensitize on importance of antenatal care.
- Collaborative sensitization meetings with Pregnant women for precautionary actions including preparation for institutional deliveries.
- Referring high risk pregnant women to medical services from the health department.

Achievement 2: 103 children (56 boys and 47 girls) below 1 year got immunized as per the schedule.

a) Household Level:

- Household level tracking of all the children to be immunized.
- Sensitization of parents and family members on importance of timely immunization.

b) Community Level:

- Sensitization meetings with community members on importance of timely immunization.
- Sensitization of families and community Nutrition and Health Day.

c) Government System Level:

- Collaborating with Health and ICDS functionaries in house visits to identified children to be immunized.
- Engagement with ICDS and health functionaries on regular basis to promote community support and participation in health and nutritional services.
- Collaborative sensitization meetings with parents on immunization schedules.

d) Protection:

Achievement 1:

- 52 Child Labour removed (6-14 years:15 and 15-18 years:37)

a) Household Level:

- Child-to-child tracking by projects to identify new child labour.

b) Community Level:

- Sensitization meetings with CBOs, VCPCs, and Child Collectives on the issue of child labour.
- Facilitating meetings with CBOs, VCPCs, and Child Collectives to discuss child labour cases and prevention.

c) Government System Level:

- Activation and strengthening of Child Protection Committees at village and ward level to ensure vigilance and early reporting of child labour.
- Sensitization of CBOs and VCPCs on child rights and responsibilities regarding child labour monitoring.

Achievement 2: 18 child marriages averted (Pragthi-8, SRAMA-9, EFFORT Khammam-1), 2 marriages stopped (Pragthi-2) and 3 marriages happened but were intervened. (SRAMA -2, KDDI-1)

a) Household Level:

- Mapping of adolescent girls at greater risk of early marriage. Tracking of all adolescent girls to ensure their continuation in education and grade transition.
- Tracking of adolescent girls to ensure their continuation in education and grade transition.
- Family-level counselling on the harmful effects of child marriage and educational alternatives for girls.
- Support to families for accessing social security entitlements and eligible government schemes.
- Family visits conducted jointly with CBO and VCPC members.

b) Community Level:

- Awareness campaigns conducted for parents and community members on the consequences of child marriage. Involving CBOs and VCPC members in sensitizing parents of the children.
- CBO and VCPC members mobilised to engage and sensitise families.
- Sensitization of child collectives to identify and report potential child marriage risks.

c) Government System Level:

- Collaboration with Childline 1098, DCPU, Child Marriage Prohibition Officers, and police to ensure timely intervention and prevention.
- Ongoing follow-up with families to reinforce their commitment to girls' education and to prevent recurrence.

e) Participation:

Achievement 1: 1439 children attended 86 CC life skills sessions, and 135 adolescent girls attended 90 AGC menstrual hygiene sessions.

a) **Household Level:**

- Home visits helped mobilize children for CC/AGC sessions with strong parental support.
- Projects encouraged vulnerable children to participate in the sessions on various topics related to life skills.

b) **Community Level:**

- CBOs and communities mobilized for child rights sessions through CCs/AGCs.
- Sessions are conducted in the community with the support of community members.

c) **Government System Level:**

- CC meetings helped raise and resolve child issues via local governance channels.

Achievement 2: 1609 parents counselled on child labour and child marriage. (Pragathi-467, SRAMA-146, KDDI-38, PORD-534, EFFORT Khammam-418, MDDI-6)

a. **Household Level:**

- Door-to-door counselling sensitized families on laws and the importance of education.

b. **Community Level:**

- CBOs led awareness drives targeting vulnerable parents and caregivers.

c. **Government System Level:**

- PRIs and Gram Secretariat staff engaged to support prevention efforts via Gram Sabhas.

Additional Achievement: Consultants mobilised Child collective children to submit requisition for public transportation facilities to access educational institutions.

f) List of organizational events, workshops, and capacity building for the Programme team organized or participated:

- Pragathi: Project teams worked closely with government systems to ensure children and families received essential support. They joined Aadhaar and ration card campaigns, advocated for better access to services like transport and official documentation, and supported ECCE Day programs. Students

were guided on career options after 10th and intermediate exams, while those who had failed were encouraged to pursue supplementary exams and join remedial classes. Teams also shared child labour data with officials and submitted requests for birth and Aadhaar certificates to help streamline access to entitlements.

- SRAMA: The SRAMA team led several impactful initiatives focused on child rights, education, and health. They conducted menstrual hygiene awareness for adolescent girls, mobilized parents for enrolling 5+ children in schools and Anganwadis, and campaigned against child marriage and labour. Children submitted petitions for better school infrastructure, while the team advocated for new and upgraded Anganwadi centers due to poor conditions and lack of facilities. Community meetings addressed children's issues, and multiple petitions were submitted to government officials to improve early education access and infrastructure across villages.
- PORD: Various child-focused and community development activities were conducted across multiple villages. These included participation in summer camps, Kishore Vikasam programs, and “Badi Bata” school enrolment drives, reaching over 140 children. Teams joined Anaemia Day awareness meetings at PHCs and launched the “Pinaca” Spoken English and Career Guidance program for 93 students. A large rally was held celebrating “Operation Sindoor,” and representatives attended a district-level MEPMA workshop on SHG livelihoods. A requisition was submitted to upgrade a mini Anganwadi center. Participants joined the Pre-Yoga Day “Yogandhra Programme” and conducted a Menstrual Hygiene Day awareness session at a nursing college. Additionally, Child Collective meetings were held in 41 villages with 849 children, focusing on school attendance, confidence-building, child labour, child marriage, life skills, and health awareness.
- EFFORT Khammam: Plans are in place to conduct awareness programs in villages focusing on reducing school dropouts, eradicating child labor, and preventing child marriages. Sessions on life skills are also planned for parents. Additionally, training programs will be organized for both Child and Adolescent Collectives, alongside the implementation of Plan of Action activities.
- MDDI: During the month, key activities included the formation of new adolescent collectives and CBOs in Nandamuri Nagar, land follow-up for permanent schools in Gabbilalpet, menstrual hygiene sessions with pad distribution in ZPHS Balaji Nagar, Q2 data entries across 5 slums, enrolment of dropouts and child labourers into formal and bridge schools via CWC coordination, and community campaigns on child labour and environmental awareness.

I. CHALLENGES FACED DURING THE MONTH (If any):

- Seasonal migration has reduced participation in parent modules and remedial classes.
- Lack of birth certificates is delaying Aadhaar for children.
- Low engagement from 15–18-year-olds in CCs, AGCs, and school re-joining efforts.
- Day-to-day planning and CBO availability are affected by overlapping activities and farm work.
- Life skill session attendance remains low among older children, especially those in labour or out of school.
- Due to summer vacation, school monitoring did not occur.
- Mainstreamed child-labour returned to work during summer vacation.

- Children getting addicted to drugs, alcohol and other substances.
- Parents' safety concerns about children stopping them from sending to schools.
- Lack of ideal space for organising meetings.

II. PROMINENT PROGRAMMATIC ACTIVITIES PLANNED FOR THE COMING MONTH:

- Identify and mainstream dropout and child labour.
- Participate in the Child Labour Rescue Operation (June 1st–30th).
- Conduct life skills sessions with Child and Adolescent Collectives.
- Engaging children in the community in WED and WDACL campaigns.
- Organize four parent life skill module sessions to improve awareness.
- Form five new CCs and AGCs in urban areas.
- Support enrolment campaigns including 10th/Inter admissions and 3+/5+ drives.
- Advocate with PRI and officials to improve school and ICDS infrastructure.
- Continue regular outreach: parent sensitization, VCPC building, and Kalajatha events.
- Planning for Mandal level multi stake holders meeting.
- Conduct monthly monitoring visits to AWCs and assess the requirement of new AWCs, infrastructural facilities in AWC.
